I Want My Kids to Know Who God Really is Barb Cantrell, 2022-06-14 In all ages faith has provided a backbone and common entity connection for the masses Faith need not tear people apart because it is a personal journey Where three such travelers meet in good faith Jesus is there Societal norms have shifted away from the Bible and active faith the type that actually works It is more important than ever to bless our children and give them a charge to carry out their faith in life Our families depend upon the government to raise our children in hope and that is not being done There is a deliberate effort to undermine faith in the USA for the purpose of weakening those in opposition to worldly plans Simply understanding the Hippocratic Oath as to Apollyon the devil can be a game changer Nearly every law passed these days is linked to a medical community that harms all day long and gives it oath to the devil Rule of law is imposed when the expected outcome is in opposition to the Constitution We must be wise as wolves to navigate it and yet remember the free flowing faith that Jesus wants us to own all our days so we can commune with Him daily and in times of need Our nation will fall to tyranny from within if we do not charge our children with keeping this a country under God Every walk of life is affected How would the LGBTQ community view their Democrat rescuers if they learned they were made gay and Democrat after it was found in a lab that a certain vitamin deficiency made rats homosexual and the science was applied to school lunch menus and after school snacks Would they still be useful digits suffering Stockholm Syndrome or would they rise against this maltreatment with anger at the loss of natural life and demand reparation and resignations Fathers mothers or grandparents if neither of the former are there lay hands on the child and bless them command them to do well by the Lord Command them to live long and multiply and prosper and be a light for the world

a person's autistic identity and to autistic culture. Further, the impacts of stigma and prejudice can be internalized by autistic individuals which may not only have poor effects on their wellbeing but also increase the want and/or need to mask or camouflage to pass as non-autistic. Masking or camouflaging can reduce a person's sense of belonging, self-esteem, sense of self-worth, and close relationships, all of which are associated with poor outcomes. It can also lead to avoidance of opportunities such as connection with other autistic individuals that could increase quality of life. This Research Topic aims to showcase evidence on why the stigma surrounding autism and the prejudice against autistic people are so detrimental. It hopes to provide insights into research and interventions on how stigma and prejudice can be tackled as well as awareness, understanding, and acceptance raised in the hope that the research presented will translate to best practice applications in clinical, public health, policy, and community settings. We invite researchers to submit a range of articles including but not limited to original research, articles, reviews, meta-analyses, opinions, perspectives, and case reports to provide new evidence on the following:

- Harmful impacts of stigma and prejudice on autistic people
- Interventions on reducing stigma surrounding and prejudice against autistic people
- Health promotion in autism, i.e. approaches that increase the mental and physical wellbeing of autistic people
- Interventions targeted at increasing understanding of autism and neurodiversity as well as increasing acceptance and advocacy of as well as allyship with autistic people
- Examining intersectionality in autism stigma and/or prejudice towards autistic people of diverse backgrounds
