150 Years Of British Psychiatry Vol Ii The Aftermath:

150 Years of British Psychiatry Hugh Freeman, 1996 **Work and Occupation in French and English Mental Hospitals, c.1918-1939** Jane Freebody, 2023-01-01 This open access book demonstrates that while occupation has been used to treat the mentally disordered since the early nineteenth century approaches to its use have varied across different countries and in different time periods Comparing how occupation was used in French and English mental institutions between 1918 and 1939 one hundred years after the heyday of moral therapy the book is an essential read for those researching the history of mental health and medicine more generally It provides an overview of the legislation management structures and financial conditions that affected mental institutions in France and England and contributed to their differing responses to the new theories of occupational therapy emerging from the USA and Germany during the interwar period

Asylums, Mental Health Care and the Irish Pauline M. Prior, 2017-02-10 This book is a collection of studies on mental health services in Ireland from the beginning of the nineteenth century to the present day Essays cover overall trends in patient numbers an exploration of the development of mental health law in Ireland and studies on individual hospitals all of which provide incredible insight into times past and yet speak volumes about mental health in contemporary Irish society Topics include the famous nursing strike at Monaghan Asylum in 1919 when a red flag was raised over the building extracts from Speedwell a hospital newsletter showing the social and sporting life at Holywell Hospital during the 1960s an exploration of diseases such as beriberi and tuberculosis at Dundrum and the Richmond in the 1890s the problems encountered by doctors in Ballinasloe Asylum as they tried to exert their authority over the Governors and the experiences of Irish emigrants who found themselves in asylums in Australia and New Zealand The book also includes a discussion of mental health services in Ireland 1959 2010 the first time such a chronology has been published The editor Pauline Prior and the contributors including Brendan Kelly Dermot Walsh Elizabeth Malcolm and E M Crawford are well known scholars within the disciplines of medicine sociology and history coming together for the first time to present an essential book on the history of mental health services in Ireland **Hearing Voices** Brendan Kelly, 2016-11-07 Hearing Voices The History of Psychiatry in Ireland is a monumental work by one of Ireland's leading psychiatrists encompassing every psychiatric development from the Middle Ages to the present day and examining the far reaching social and political effects of Ireland's troubled relationship with mental illness From the Glen of Lunatics said to cure the mentally ill to the overcrowded asylums of later centuries with more beds for the mentally ill than any other country in the world Ireland has a complex unsettled history in the practice of psychiatry Kelly's definitive work examines Ireland's unique relationship with conceptions of mental ill health throughout the centuries delving into each medical breakthrough and every misuse of authority both political and domestic for those deemed to be mentally ill Through fascinating archival records Kelly writes a crisp and accessible history evaluating everything from individual case histories to the seismic effects of the First World War and exploring the attitudes that guided treatments

spanning Brehon Law to the emerging emphasis on human rights *Hearing Voices* is a marvel that affords incredible insight into Ireland's social and medical history while providing powerful observations on our current treatment of mental ill health in Ireland **Desperate Housewives, Neuroses and the Domestic Environment, 1945-1970** Ali Haggett, 2015-10-06

Although the figure of the desperate housewife is familiar to us Haggett suggests that many women in the 1950s and 60s led satisfying lives and that gender roles while very different were often seen as equal *Pathways of Patients at the Grahamstown Lunatic Asylum, 1890 to 1907* Rory du Plessis, 2020-01-01 About the publication *Pathways of patients* explores the casebooks of the Grahamstown Lunatic Asylum during the superintendence of Dr Thomas Duncan Greenlees from 1890 to 1907 The hallmark of *Pathways of patients* is an examination of the asylum's casebooks to bring into view the humanity of the patients their distinct personal experiences and their individuality The book is underpinned by an allied goal to retrieve the casebook narratives of the patients' life stories their acts of agency and their pathways to and from the asylum with a view to understanding and portraying the context of patient experiences at the time *A War of Nerves* Ben Shephard, 2002

Drawing on a vast range of sources this is a study of how war wounds men's minds and of medicine's efforts to heal the damage done At once a historical narrative and intellectual detective story it tells the full story of shell shock explaining the aftermath of wars such as Vietnam *Freud in Cambridge* John Forrester, Laura Cameron, 2017-03-09 The authors explore the influence of Freud's thinking on twentieth century intellectual and scientific life within Cambridge and beyond

Creating Prehistory Adam Stout, 2009-04-22 *Creating Prehistory* deals even handedly and sympathetically with the creation of several different sorts of prehistory during the volatile period between the two World Wars Investigates the origins of professional archaeology in Britain during the inter war period Brings to life many fascinating and controversial personalities and their creeds including the archaeologists O G S Crawford Mortimer Wheeler and Gordon Childe Grafton Elliot Smith and W H R Rivers of Regeneration fame Alfred Watkins and The Old Straight Track and the thunderous George Watson Macgregor Reid who brought the Druids back to Stonehenge Examines the production of archaeological knowledge as a social process and the relationship between personalities institutions ideology and power Addresses the ongoing debates of the significance of sites such as Stonehenge Avebury and Maiden Castle *Pragmatic Idealism* Axel Wüsthube, Michael Quante, 1998 From the contents Moral facts and objective values Timo Airaksinen Values and reasons Leonardo Rodriguez Dupla Rescher on evolution and the intelligibility of nature George Gale The nature of philosophy John Kekes Individual and other person morality a plea for an emotional response to ethical problems Peter Machamer Was Spinoza a person Raymond Martin *The Confinement of the Insane* Roy Porter, David Wright, 2003-08-07 The rise of the asylum constitutes one of the most profound and controversial events in the history of medicine Academics around the world have begun to direct their attention to the origins of the confinement of those deemed insane exploring patient records in an attempt to understand the rise of the asylum within the wider context of social and economic change of nations undergoing modernisation Originally

published in 2003 this edited volume brings together thirteen original research papers to answer key questions in the history of asylums What forces led to the emergence of mental hospitals in different national contexts To what extent did patient populations vary in terms of their psychiatric profile and socio economic background What was the role of families communities and the medical profession in the confinement process This volume therefore represents a landmark study in the history of psychiatry by examining asylum confinement in a global context Cultures of Neurasthenia ,2016-08-22 Neurasthenia meaning nerve weakness was invented in the United States as a disorder of modernity caused by the fast pace of urban life Soon after from the early 1880s onwards this modern disease crossed the Atlantic Neurasthenia became much less popular in Britain or the Netherlands than in Germany Neurasthenia s heyday continued into the first decade of the twentieth century The label referred to conditions similar to those currently labelled as chronic fatigue syndrome Why this rise and fall of neurasthenia and why these differences in popularity This book which emerged out of an Anglo Dutch German conference held in June 2000 explores neurasthenia s many sided history from a comparative perspective *Mental Health Services in Europe* Brimblecombe Neil,Peter Nolan,2023-01-20 Worldwide mental health problems are set to become the second greatest threat to health by the end of the next decade The European Union has identified mental health problems as a growing concern although there is great variation within EU countries with respect to patient numbers and the range of facilities available to them Historically EU mental healthcare services have been analysed using measurable aspects of care provisions such as throughput costs and outcome measures Little is known of the experiences perceptions beliefs and values of those accessing and providing services This enlightening new book adopts a very different approach With a particular focus on nursing it examines and critiques the state of specialist mental health services in nine EU countries Czech Republic Finland Ireland Greece Luxembourg Netherlands Germany United Kingdom and Portugal Each chapter focuses on a single country and ascertains existing services their development the treatments and care provided factors preventing better service delivery and suggestions for improvement A rich pattern of differences emerge and comparisons can then be drawn It also explores the emergence of an EU mental health identity in regards to selection of mental health personnel their training and education and the range of services they provide Healthcare professionals and students with a particular interest in mental health issues especially those with an interest in international approaches will welcome the fresh analysis It provides vital new information for European policy makers and shapers voluntary sector personnel and service users and the organisations representing them **Cultures of Psychiatry and Mental Health Care in Postwar Britain and The Netherlands** ,2020-06-15 Anti psychiatry is a movement more sloganized than analysed Until now it has been associated in the English speaking world primarily with R D Laing and a coterie of his associates and a radical critique not just of psychiatric hospitalization but of the very premises of psychiatry itself and the basic institutions of society especially the family But are these notions accurate or rather distorted images created by Laing himself or by the media In this book which

has emerged out of an Anglo Dutch conference held in June 1997 the realities of critical psychiatry are explored using comparisons and contrasts between the British and the Dutch experiences as a probe There were it turns out various distinct anti psychiatries indeed hardly anybody actually used that label about themselves and they played a role in the reform no less than the rejection of regular psychiatry **Psychiatry: An evidence-based text** Bassant Puri,Ian Treasaden,2009-11-27 Succinct user friendly thoroughly referenced and prepared by leading experts in the field this book is the only single textbook you will need to succeed in the Royal College of Psychiatrists MRCPsych and other related higher examinations Chapters follow the structure and syllabus of the examination ensuring that you receive the necessary essen The History of Bethlem Jonathan Andrews,Asa Briggs,Roy Porter,Penny Tucker,Keir Waddington,2013-06-17 First full scholarly history of Bethlem since World War 1 Coincides with 750th anniversary celebrations Six specialist and famous authors Based on full use of Bethlem Archives Relates to wider context of social London psychiatry medical history Electroconvulsive Therapy in America Jonathan Sadowsky,2016-11-03 Electroconvulsive Therapy is widely demonized or idealized Some detractors consider its very use to be a human rights violation while some promoters depict it as a miracle the penicillin of psychiatry This book traces the American history of one of the most controversial procedures in medicine and seeks to provide an explanation of why ECT has been so controversial juxtaposing evidence from clinical science personal memoir and popular culture Contextualizing the controversies about ECT instead of simply engaging in them makes the history of ECT more richly revealing of wider changes in culture and medicine It shows that the application of electricity to the brain to treat illness is not only a physiological event but also one embedded in culturally patterned beliefs about the human body the meaning of sickness and medical authority **Contemporary Psychiatry** Fritz Henn,Norman Sartorius,Hanfried Helmchen,Hans Lauter,2013-11-11 Contemporary Psychiatry is an international textbook developed on the basis of the experience with its first three German editions making it a work with long and distinguished tradition It combines the German tradition of phenomenology and diagnosis going back to Kraepelin with the Anglo American tradition and the DSM IV diagnostic system In doing so Contemporary Psychiatry becomes a unique source among psychiatric texts offering a truly international approach to state of the art knowledge and future perspectives of psychiatry The four internationally renowned editors were able to aquire the leading specialists as contributors No less than 120 authors from 10 different countries ensure an extremely high standard and guarantee the consideration of cross cultural aspects A special feature of Contemporary Psychiatry is that it includes chapters on psychiatric disorders caused by extreme circumstances such as for example migration torture rape violence and natural and man made disasters *Portrait of the Psychiatrist as a Young Man* Allan Beveridge,2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy He championed the rights of the patient and challenged the often inhumane methods of treating the mentally ill Based on a

wealth of previously unexamined archives relating to his private papers and clinical notes *Portrait of the Psychiatrist as a Young Man* sheds new light on RD Laing and in particular his early formative years a crucial but largely overlooked period in his life The first half of the book considers Laing's intellectual journey through the world of ideas and his development as a psychiatric theorist An analysis of his notebooks and personal library reveals Laing's engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy literature and religion This part of the book considers how this shaped Laing's writing about madness and his evolution as a clinician The second half draws on a rich and completely unexplored collection of Laing's clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the British Army subsequently in the psychiatric hospitals of Glasgow and finally in the Tavistock Clinic in London These notes reveal what Laing was actually doing in clinical practice and how theory interacted with therapy The majority of patients who were to appear in Laing's first two books *The Divided Self* and *The Self and Others* have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes There is a considerable mythology surrounding Laing partly created by himself and partly by subsequent commentators By a careful examination of primary sources Allan Beveridge both a psychiatrist and an historian examines the many mythological narratives about Laing and provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today This book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry

Medicine, Disease and the State in Ireland, 1650-1940 Greta Jones, Elizabeth Malcolm, 1999 A pioneering collection of essays aiming to open up the previously neglected area of the social history of medicine in Ireland
