Stebbins, Janet L. Comey, Martin Johnson Heade, Karen E. Quinn, 2000-01-01 Martin Johnson Heade was one of the most significant American painters of the nineteenth century creator of portraits history and genre pictures still lifes ornithological studies landscapes and marines and his own unique orchid and hummingbird compositions This book brings a perspective to Heade and his works presenting him as one of the most original and productive painters of his time Theodore Stebbins builds on his acclaimed 1975 study of Heade drawing on several newly discovered collections of Heade's letters and the painter's own Brazilian journal Stebbins tells of Heade's training and early career as an itinerant portraitist and discusses his move to New York where under the influence of Frederic E Church he began painting landscapes and seascapes He examines Heade's relationships with patrons and dealers writers and scientists and he sheds new light on Heade's trips to Brazil to the Central American tropics and to London And he describes Heade's move to Florida in 1883 which marked not his retirement but a final period of creativity that lasted until his death in 1904 The book includes not only an examination of Heade's life and works but also reproductions of all his 620 known paintings including nearly 250 that have been discovered since 1975 **Made in America: Printmaking, 1760-1860** Library Company of Philadelphia, 1973 **North American Women Artists of the Twentieth Century** Jules Heller, Nancy G. Heller, 2013-12-19 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company *The American Art Union* Kimberly A. Orcutt, 2024-08-06 The first comprehensive treatment in seventy years of the American Art Union's remarkable rise and fall For over a decade the New York based American Art Union shaped art creation display and patronage nationwide Boasting as many as 19 000 members from almost every state its meteoric rise and its sudden and spectacular collapse still raise a crucial question Why did such a successful and influential institution fail The American Art Union reveals a sprawling and fascinating account of the country's first nationwide artistic phenomenon creating a shared experience of visual culture art news and criticism and a direct experience with original works For an annual fee of five dollars members of the American Art Union received an engraving after a painting by a notable US artist and the annual publication *Transactions* 1839 49 and later the monthly *Bulletin* 1848 53 Most importantly members names were entered in a drawing for hundreds of original paintings and sculptures by most of the era's best known artists Those artworks were displayed in its immensely popular Free Gallery Unfortunately the experiment was short lived Opposition grew and a cascade of events led to an 1852 court case that proved to be the Art Union's downfall Illuminating the workings of the American art market this study fills a gaping lacuna in the history of nineteenth century US art Kimberly A Orcutt draws from the American Art Union's records as well as in depth contextual research to track the organization's decisive impact that set the direction of the country's paintings sculpture and engravings for well over a

decade Forged in cultural crosscurrents of utopianism and skepticism the American Art Union's demise can be traced to its nature as an attempt to create and control the complex system that the early nineteenth century art world represented This study breaks the organization's activities into their major components to offer a structural rather than chronological narrative that follows mounting tensions to their inevitable end The institution was undone not by dramatic outward events or the character of its leadership but by the character of its utopianist plan
