**Donald Sassoon**

## **1890 1990 One Hundred Years Of Spanish Cameras:**

**One Hundred Years of Sea Power** George W. Baer,1996-07-01 A navy is a state's main instrument of maritime force. What it should do, what doctrine it holds, what ships it deploys and how it fights are determined by practical political and military choices in relation to national needs. Choices are made according to the state's goals, perceived threat, maritime opportunity, technological capabilities, practical experience, and not the least, the way the sea service defines itself and its way of war. This book is a history of the modern U.S. Navy. It explains how the Navy in the century after 1890 was formed and reformed in the interaction of purpose, experience, and doctrine. 1994 Massimo Mastrogregori,2013-05-08 Annually published since 1930, the International Bibliography of Historical Sciences (IBOHS) is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times. The works are arranged systematically according to period, region, or historical discipline, and within this classification alphabetically. The bibliography contains a geographical index and indexes of persons and authors. One Hundred Years of Socialism Donald Sassoon,2010-07-30 On 14 July 1889, the centenary of the French Revolution, socialist parties from all corners of Europe met in Paris. On the same day in the same city, the Exposition Universelle was launched to mark the achievements of capitalist production. The two events symbolized the beginning of the epic struggle between socialism and capitalism in Europe. In this comprehensive study of a century of socialism, the author traces the fortunes of the political parties of the Left in Western Europe. From the rise of the Bolsheviks to the fall of the Berlin wall, from the Second International through two world wars to the Cold War and the birth of the welfare state, from the working class militancy and student uprisings of the 1960s through the revival of feminism and the arrival of green politics to the reluctant embrace of market economics en route to the millennium, Donald Sassoon charts the course of socialism across 14 countries. He shows that throughout their history, the fortunes of socialism and capitalism have been inextricably linked. They have grown up side by side, each one challenging and seeking to destroy yet nourishing and shaping the other. **The Sources of Democratic Consolidation** Gerard Alexander,2018-10-18 Why did precarious and collapsed democracies in Europe develop into highly stable democracies? Gerard Alexander offers a rational choice theory of democratic consolidation in a survey of the breakdowns of and transitions to democratic institutions. Through an analysis of developments in Spain, Britain, France, Germany, and Italy, Alexander explores how key political sectors established the long-term commitment to democracy that distinguishes consolidated democracies. Alexander makes a highly accessible, rationalist argument about the conditions under which such commitments emerge, arguing that powerful sectors abandon options for overthrowing democratic rules only when they predict low risks in democracy. The author's argument parallels established claims about the predictability essential to the development of modern capitalism. *The Sources of Democratic Consolidation* outlines Alexander's claim that a political precondition, rather than an economic or social precondition, exists for consolidated democracies.

Drawing on interviews and archival research the author links his argument to evidence from the five largest countries in Western Europe from the 1870s to the 1980s and also discusses the implications for the prospects for democratic consolidation in other regions Political pacts power sharing and institutional designs he says may help stabilize uncertain democracies but they cannot create consolidation **America, History and Life**, 1991 *Peter Jackson* Bob Petersen, 2014-01-10 Born to former slaves on St Croix in 1860 Peter Jackson made his name as a boxer with his smooth fast style and a dangerous one two combination After immigrating to Australia Jackson became that country s national heavyweight champion in 1886 before moving on to the United States and claiming the title of Colored Champion of the World in 1888 For the next ten years Peter Jackson remained undefeated finally losing to the great Jim Jeffries in 1898 Although he never received a shot at the heavyweight title reigning heavyweight champion John L Sullivan refused to defend his title against a black man Jackson remains one of the greatest heavyweights ever **United States Exports of Domestic and Foreign Merchandise**, 1957 *Oxbridge Men* Paul R. Deslandes, 2005-05-04 The mythic status of the Oxbridge man at the height of the British Empire continues to persist in depictions of this small elite world as an ideal of athleticism intellectualism tradition and ritual In his investigation of the origins of this myth Paul R Deslandes explores the everyday life of undergraduates at Oxford and Cambridge to examine how they experienced manhood He considers phenomena such as the dynamics of the junior common room the competition of exams and the social and athletic obligations of intercollegiate boat races to show how rituals activities relationships and discourses all contributed to gender formation Casting light on the lived experience of undergraduates Oxbridge Men shows how an influential brand of British manliness was embraced altered and occasionally rejected as these students grew from boys into men U.S. Exports, 1955 *Scientific American*, 1890 Monthly magazine devoted to topics of general scientific interest *Monthly Catalogue, United States Public Documents*, 1991 Monthly Catalog of United States Government Publications, 1991 *Monthly Catalog of United States Government Publications* United States. Superintendent of Documents, 1991 February issue includes Appendix entitled Directory of United States Government periodicals and subscription publications September issue includes List of depository libraries June and December issues include semiannual index For Tranquility and Order Laura M. Shelton, 2010-05-15 On Mexico s northwestern frontier judicial conflicts unfolded against a backdrop of armed resistance and ethnic violence In the face of Apache raids in the north and Yaqui and Mayo revolts in the south domestic disputes involving children wives and servants were easily conflated with ethnic rebellion and barbarous threats A wife s adulterous liaison a daughter s elopement or a nephew s enraged assault shook the very foundation of what it meant to be civilized at a time when communities saw themselves under siege Laura Shelton has plumbed the legal archives of early Sonora to reveal the extent to which both court officials and quarreling relatives imagined connections between gender hierarchies and civilized order As she describes how the region s nascent legal system became the institution through which spouses parents children

employers and servants settled disputes over everything from custody to assault to debt she reveals how these daily encounters between men and women in the local courts contributed to the formation of republican governance on Mexico's northwestern frontier Through an analysis of some 700 civil and criminal trial records along with census data military reports church records and other sources Shelton describes how courtroom encounters were conditioned by an Iberian legal legacy brutal ethnic violence emerging liberal ideas about trade citizenship and property rights and a growing recognition that honor buenas costumbres was dependent more on conduct than on bloodline For Tranquility and Order offers new insight into a legal system too often characterized as inept as it provides a unique gender analysis of family relations on the frontier
