Roy Porter, Mikuláš Teich

1919 Red Mirage:

1919: Red Mirage David J. Mitchell, 1970 Analyzes the result of the trouncing of progressive idealism in 1919 Shows how the collapse of President Wilson's brand of liberalism the failure of the very individual Marxist experiments in Germany and Hungary the rout of the belligerent anarchism of d'Annunzio in Italy and Makhno in the Ukraine and the eclipse of the more libertarian Russian Communists led to the triumph of the monolithic ideologies one hundred per cent Americanism Moscow style Communism Fascism **Nineteen Nineteen) 1919** David Mitchell, 1970 White Freedom Tyler Stovall, 2022-08-23 The racist legacy behind the Western idea of freedom The era of the Enlightenment which gave rise to our modern conceptions of freedom and democracy was also the height of the trans Atlantic slave trade America a nation founded on the principle of liberty is also a nation built on African slavery Native American genocide and systematic racial discrimination White Freedom traces the complex relationship between freedom and race from the eighteenth century to today revealing how being free has meant being white Tyler Stovall explores the intertwined histories of racism and freedom in France and the United States the two leading nations that have claimed liberty as the heart of their national identities He explores how French and American thinkers defined freedom in racial terms and conceived of liberty as an aspect and privilege of whiteness He discusses how the Statue of Liberty a gift from France to the United States and perhaps the most famous symbol of freedom on Earth promised both freedom and whiteness to European immigrants Taking readers from the Age of Revolution to today Stovall challenges the notion that racism is somehow a paradox or contradiction within the democratic tradition demonstrating how white identity is intrinsic to Western ideas about liberty Throughout the history of modern Western liberal democracy freedom has long been white freedom A major work of scholarship that is certain to draw a wide readership and transform contemporary debates White Freedom provides vital new perspectives on the inherent racism behind our most cherished beliefs about freedom liberty and human rights 1919 David Mitchell, 1970 *The Making of Adolf Hitler* Eugene Davidson, 1997 The harsh Armistice terms of 1918 the short lived Weimar Republic Hindenburg's senile vacillations and behind the scene power plays form the backbone of this excellent study covering German history during the first three and a half decades of the century Publishers website **Political Repression in Modern America from 1870 to 1976** Robert Justin Goldstein, 2001 Enhanced with a new introduction and an updated bibliography Political Repression in Modern America remains an essential record of the relentless intolerance that suppresses radical dissent in the United States *The Day Wall Street Exploded* Beverly Gage, 2009 Just after noon on September 16 1920 as hundreds of workers poured onto Wall Street for their lunchtime break a horse drawn cart packed with dynamite exploded in a spray of metal and fire turning the busiest corner of the financial center into a war zone Thirty nine people died and hundreds more lay wounded making the Wall Street explosion the worst terrorist attack in U S history until the Oklahoma City bombing In *The Day Wall Street Exploded* Beverly Gage tells the story of that once infamous but now

largely forgotten event Based on thousands of pages of Bureau of Investigation reports this historical detective saga traces the four year hunt for the perpetrators a worldwide effort that spread as far as Italy and the new Soviet nation It also gives readers the decades long but little known history of homegrown terrorism that helped to shape American society a century ago The book delves into the lives of victims suspects and investigators world banking power J P Morgan Jr labor radical Big Bill Haywood anarchist firebrands Emma Goldman and Luigi Galleani America s Sherlock Holmes William J Burns even a young J Edgar Hoover It grapples as well with some of the most controversial events of its day including the rise of the Bureau of Investigation the federal campaign against immigrant terrorists the grassroots effort to define and protect civil liberties and the establishment of anti communism as the sine qua non of American politics Many Americans saw the destruction of the World Trade Center as the first major terrorist attack on American soil an act of evil without precedent The Day Wall Street Exploded reminds us that terror too has a history Praise for the hardcover Outstanding New York Times Book Review Ms Gage is a storyteller she leaves it to her readers to draw their own connections as they digest her engaging narrative The New York Times Brisk suspenseful and richly documented The Chicago Tribune An uncommonly intelligent witty and vibrant account She has performed a real service in presenting such a complicated case in such a fair and balanced way San Francisco Chronicle

Painting the Town Red Bob Dent, 2018-03-20 The intensely political cultural production that erupted during Hungary s short lived Soviet Republic of 1919 encompassed music art literature film and theatre Painting the Town Red is the little known history of these developments The book opens with an overview of the political context in Hungary after the First World War and how the Soviet Republic emerged in the chaotic months which followed the collapse of the Austro Hungarian Dual Monarchy It looks at the subsequent roles during the Soviet Republic of artists film makers actors musicians and writers and the attitude of the newly established People s Commissariat for Education and Culture in which the future internationally renowned Marxist Gyorgy Lukacs played a leading role At its centre are the questions why did so many prominent people in the arts world participate in the Soviet Republic and why did their initial enthusiasm later subside Painting the Town Red is an important contribution to the lively debate about the interaction between art and politics Bolshevik Visions William G. Rosenberg, 1990 The first volume of a collection of writings by early Soviet critics and theorists

The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March

1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state **'Benefits Bestowed'?** J. A. Mangan,1988 The study of the European Union has historically been a theoretical battleground Since the 1990s new theoretical directions such as neo institutionalism multi level governance and constructivism have provided a new impetus However despite these new inroads empirical work has often remained sociologically and empirically underspecified This volume seeks to bridge the gap between theory and fieldwork by developing an actor centred political sociology In doing so the volume engages in a critical dialogue with the constructivist framework and proposes to build on its insights through a sociological hardening centred on European actors The renewal of European studies through political sociology is only useful if it generates new understandings through empirical observation This volume seeks to take a new tack on constructivism by asking what it is that Europe constructs by looking at three areas social spaces and professions policy problems and policies and policy instruments such as the Eurobarometer *Revolution in History* Roy Porter,Mikuláš Teich,1986-10-09 Fifteen contributors examine the interpretative value of ideas of revolution for explaining historical development within their own speciality They assess the existing historiography and offer their personal views **A People's History of the Second World War** Donny Gluckstein,2012-06-14 This history reclaims the Second World War as a global fight from below The vast majority of historical accounts have focused on the regular armies of the allied powers however the often neglected people s militias were crucial not only to the defeat of fascism but also colonialism imperialism and even capitalism Looking at militias in Yugoslavia Greece Poland and Latvia as well as the Warsaw Uprising and anti fascist movements in Germany it presents a different battle fought on different terms Widening its scope to India where an independence movement was shaking an already weak British Empire and onto alternative anti imperialist struggles in Indonesia and Vietnam a global picture of people s resistance is revealed Despite these radical elements the allied governments were more interested in creating a new order to suit their interests and many of these movements were ultimately betrayed However many shook the existing world order to its core *Joe Hill* Franklin Rosemont,2015-12-18 A monumental work expansive in scope covering the life times and culture of that most famous of the Wobblies songwriter poet hobo thinker humorist martyr Joe Hill It is a journey into the Wobbly culture that made Hill and the capitalist culture that killed him Many aspects of the life and lore of Joe Hill receive their first and only discussion in IWW historian Franklin Rosemont s opus In great detail the issues that Joe Hill raised and grappled with in his life capitalism white supremacy gender religion wilderness law prison and industrial unionism are shown in both the context of Hill s life and for their enduring relevance in the century since his death Collected too is Joe Hill s art plus scores of other images featuring Hill inspired art by IWW illustrators from Ralph Chaplin to Carlos Cortez as well as contributions from many other labor artists As Rosemont suggests in this remarkable book Joe Hill never really died He lives in the minds of young and old rebels as long as his songs are sung his ideas are circulated and his political descendants keep

fighting for a better day *The Trade Union Rank and File* Alan Clinton,1977 Monograph on historical trends in the trade union movement in the UK during the period from 1900 to 1940 with particular reference to the role of trades councils covers trade union structure workers representation working class organization political participation the role of the labour political party and national level trade union federation tuc social implications of labour disputes incl The general strike of 1926 etc and includes statistical tables on the membership of trades councils Bibliography pp 239 to 254 and references

The Oxford Handbook of Postcolonial Studies Graham Huggan,2013-09-12 The Oxford Handbook of Postcolonial Studies is a major reference work which aims to provide informed insights into the possible future of postcolonial studies as well as a comparative overview of the latest developments in the field Capitalism: The Basics David Coates,2015-09-07 The global economy is dominated by a powerful set of established and emerging capitalisms from the long standing capitalist economies of the West to the rising economies of the BRIC Brazil Russia India and China countries An understanding of capitalism is therefore fundamental to understanding the modern world Capitalism The Basics is an accessible introduction to a variety of capitalisms and explores key topics such as the history of major capitalist economies the central role played by both states and markets in the global economy the impact of capitalism on wages workers and welfare approaches to the analysis of capitalism and choices for capitalism s future Examining capitalism from both above and below featuring a range of case studies from around the globe and including a comprehensive glossary this book is the ideal introduction for students studying capitalism **Utopias, Ecotopias and Green Communities** Liam Leonard,2007-01-01 Advances in Ecopolitics includes a range of publications which each discuss a significant element in the environmental theory which now represent an important aspect of sustainable living This series has now got a new title Advances in Sustainability and Environmental Justice Editorial Objectives This series provides a series of insights into real alternatives to the current economic malaise with an examination of key themes such as transition towns sustainable utopias co operative farming sustainability and activism ecofeminism green protectionism intentional communities environmental justice environmental movements green philosophies politics and green economics Topicality The series provides a series of environmental alternatives which require our fullest consideration in light of the ongoing economic downturn which has accompanied the latest incarnation of unsustainable practices It provides a forum for debate about a positive set of sustainable alternatives which set out an understanding that another world is possible Key Benefits This book series is essential reading for all academics researchers and practioners who are involved in the areas of environmentalism and it Acts as a forum for debate and enables the publication of papers which establish understanding of environmentalism and sustainability Provides a unique opportunity for the exchange of peer reviewed knowledge on the widest extent of environmental and ecological issues Allows for the establishment of working networks of environmental academics from across the globe Key Audiences This series particularly encourages academics researchers and practitioners from Europe North America and from developing nations to share their

experience knowledge and practices with an international audience Contributors from across the globe that focus on issues and research which will affect and inform ecopolitical studies are welcome to submit work for consideration in the series Coverage The series encourages well written articles with the focus on interdisciplinary international and comparative standpoints on contemporary management issues Coverage includes but is not restricted to Ecological politics Sustainable development Environmental philosophy Green party politics Environmental economics Environmental movements Ecofeminism Sustainable living practices

November 1918 Robert Gerwarth,2020 The story of an epochal event in German history but also the story of the most important revolution that you might never have heard of

World War II in Europe David T. Zabecki,2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps

The Enigmatic Realm of **1919 Red Mirage**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic.
