Technology and the Big House in Ireland, C. 1800-c. 1930 Charles John Thomas Carson,2009 By the beginning of the nineteenth century over ninety five percent of all the productive land in Ireland was in the hands of Anglo Irish landowners They lived in the big houses some of which still exist today resplendent within their walled estates Many others are now only gaunt ruins silhouetted against somber Irish skies victims of the troubles in the 1920s There is a continuing fascination with the history of the big house in Ireland Much of this interest stems from the Anglo Irish living in places apart in their estates often in remote areas of an undeveloped and hostile land Part of the appeal is in the characters neither wholly English nor Irish who made up this landowning class in Ireland However another part largely ignored until this study is how many of these landowners not only met these challenges but achieved remarkable levels of self sufficiency It was their exploitation of technology that hugely bolstered their status and independence and enabled them to lead an exotic lifestyle in Ireland Although much has been written regarding the social and political history of the Anglo Irish in Ireland little research has been conducted into the practical problems of living there At a time when there were few roads no railways and sailing ships were the unreliable connection with England existence might have been very basic indeed Charles Carson uncovers and explains in simple terms the technologies employed to not

only make life bearable but in some case to become a triumph over seemingly impossible odds An appreciation of this background helps to explain the sense of status and independence that emanates from the big house in Ireland until their demise in the late twentieth century Interdisciplinary investigative methods were used in this work These included extensive archival research of estate papers throughout Ireland fieldwork involving examination and photography of still extant big house technology and the use of published fictional and biographical big house material Much additional insight and suggestions for further research resulted from visits to various big house locations Owners often descendants of the original families or managers and ground staff provided important local knowledge Climbing amongst stored artefacts in cellars barns and subterranean tunnels helped to bring the past alive Something of the ambiance of these explorations informs this book thus helping towards an understanding of the fundamental importance of technology in underpinning the status and independence of the big house in Ireland By examining the range costs and changing nature of the technologies employed this book makes an important contribution to a deeper understanding of life in the big house in Ireland circa 1800 to circa 1930 Brief descriptions accompanied by drawings or photographs are employed to explain the operation limitations and improvements of many of the installations and techniques These include water closets pumps cisterns boilers and firefighting equipment open fires hot air stoves and central heating walled gardens hot walls and beds warm air steam and hot water heating of glasshouses the construction location stocking and use of ice houses and ice daylight enhancement candle oil gas and electric lighting an optical telegraph a church spire engine driven equipment on the estate farm as well as mapping of bogs and their reclamation by wooden railways Technology and the Big House in Ireland c 1800 c 1930 is an important reference source for Irish study groups worldwide [Dawn of the Electronic Age](#) Frederik Nebeker, 2009-03-30 A comprehensive and fascinating account of electrical and electronics history Much of the infrastructure of today s industrialized world arose in the period from the outbreak of World War I to the conclusion of World War II It was during these years that the capabilities of traditional electrical engineering generators power transmission motors electric lighting and heating home appliances and so on became ubiquitous Even more importantly it was during this time that a new type of electrical engineering electronics emerged Because of its applications in communications both wire based and wireless entertainment notably radio the phonograph and sound movies industry science and medicine and the military the electronics industry became a major part of the economy Dawn of the Electronic Age explores how this engineering knowledge and its main applications developed in various scientific economic and social contexts and explains how each was profoundly affected by electrical technologies It takes an international perspective and a narrative approach unfolding the story chronologically Though a scholarly study with sources of information given in endnotes for engineers and historians of science and technology the book is intended for the general public Ultimately it tells the story of the development of a new realm of engineering and its widespread applications during the remarkable and tragic period of two world wars and the

decades in between **Museum Lighting** David Saunders,2021-01-12 This indispensable guide to museum lighting written by distinguished conservation scientist David Saunders is the first new volume of its kind in over thirty years Author David Saunders former keeper of conservation and scientific research at the British Museum explores how to balance the conflicting goals of visibility and preservation under a variety of conditions Beginning with the science of how light color and vision function and interact he proceeds to offer detailed studies of the impact of light on a wide range of objects including paintings manuscripts textiles bone leather and plastics With analyses of the effects of light on visibility and deterioration Museum Lighting provides practical information to assist curators conservators and other museum professionals in making critical decisions about the display and preservation of objects in their collections *Film Noir and the Arts of Lighting* Patrick Keating,2024-07-12 More than any other set of films from the classical era the Hollywood film noir is known for its lighting the cast shadows the blinking street signs the eyes sparkling in the darkness Each effect is rich in symbolism evoking a world of danger and doppelgangers But what happens if we set aside the symbolism This book offers a new account of film noir lighting grounded in a larger theory of Hollywood cinematography as emotionally engaging storytelling Above all noir lighting is dynamic switching from darkness to brightness and back again as characters change locations shift and fates unfold Richly illustrated Film Noir and the Arts of Lighting features in depth analyses of eleven classic movies The Asphalt Jungle Sorry Wrong Number Odds against Tomorrow The Letter I Wake Up Screaming Phantom Lady Strangers on a Train Sweet Smell of Success Gaslight Secret beyond the Door and Touch of Evil **Shedding Light on Indoor Tanning** Carolyn J. Heckman,Sharon L. Manne,2011-09-15 Since the industrialization and urbanization of the Western workforce tanned skin has been perceived increasingly as attractive and fashionable for naturally light skinned individuals However in addition to causing tanning photo aging and other health effects ultraviolet radiation UV is a well known carcinogen Despite wide spread awareness of UV risks tanning has become increasingly popular in several Western countries including the USA While millions of individuals tan indoors each day relatively little is known about this phenomenon This book fills that gap by providing an overview of indoor tanning reasons for its popularity its risks including skin cancers and the public health context surrounding the behavior We have invited some of the preeminent experts in the field to summarize the existing scientific literature for each of the chapters Shedding Light on Indoor Tanning is an up to date and comprehensive book that provides a unique and essential overview of the most significant current issues related to indoor tanning for scientists educators students clinicians and the general public interested in dermatology aesthetic trends skin care and skin cancer

Hollywood Aesthetic Todd Berliner,2017 Hollywood makes the most widely successful pleasure giving artworks the world has ever known The industry operates under the assumption that pleasurable aesthetic experiences among huge populations translate into box office success With that goal in mind Hollywood has systematized the delivery of aesthetic pleasure packaging and selling it on a massive scale In Hollywood Aesthetic Todd Berliner accounts for the chief attraction of

Hollywood cinema worldwide its entertainment value The book examines films such as City Lights and Goodfellas that have earned aesthetic appreciation from both fans and critics But it also studies some curious outliers cult films and celebrated Hollywood experiments such as The Killing and Starship Troopers And it demonstrates that even ordinary popular films from Tarzan and His Mate to Rocky III as well as action blockbusters like Die Hard and The Dark Knight offer aesthetic pleasure to mass audiences Hollywood Aesthetic explains how Hollywood engages viewers by satisfying their aesthetic desires Visit the companion website at www.oup.com/us/hollywoodaesthetic *Projection of Light Truck Population to Year 2025*

Lindsey-Kaufman Company,1978 **The Culture of Energy** Mogens Rüdiger,2009-05-27 The culture of the modern world involves a sizeable and continuous use of energy The story of energy as a part of modernity begins in the early 19th Century with hard work experiments and the establishment of local energy systems The natural conditions made certain by the alternation between light and dark between warmth and cold was gradually suspended by the introduction of electric lighting and heating into the home The welfare state has significantly hastened this development to the degree that notions such as wellness and individual well being have become natural elements of our consumer culture and our daily life In most parts of the world we have light whenever we desire it and the homes maintain a comfortable temperature of 21 degrees Celsius by use of either heating or of air conditioning In The Culture of Energy historians social scientists and architects focus on various aspects of the energy culture in Western Europe the United States India and former Soviet Union and examine subjects such as the history of lighting street lighting heating and central heating household uses of energy the debate on nuclear power energy conservation and environmental perspectives on energy **Light, Freedom and Song** David

Pierce,2005-01-01 In this absorbing analysis of modern Irish writing an acknowledged expert considers the hybrid character of modern Irish writing to show how language culture and history have been affected by the colonial encounter between Ireland and Britain Examining the great themes of loss and struggle David Pierce traces the impact on Irish writing of the Great Famine and cultural nationalism and considers the way the work of Ireland s two leading writers W B Yeats and James Joyce complicate and elucidate our view of the harp and the crown The book draws a contrast between the West of Ireland in the 1930s when the new Irish State enjoyed its first full independent decade and the North of Ireland in the 1980s when the spectre of British imperialism threatened the stability of Ireland Pierce then surveys contemporary Irish writing and reflects on the legacy of the colonial encounter and on the passage to a postmodern or postnationalist Ireland in the work of such crucial living writers as John Banville Derek Mahon and John McGahern *Kansas Baseball, 1858-1941* Mark E.

Eberle,2017-04-21 As baseball was becoming the national pastime Kansas was settling into statehood with hundreds of towns growing up with the game The early history of baseball in Kansas chronicled in this book is the story of those towns and the ballparks they built of the local fans and teams playing out the drama of the American dream in the heart of the country Mark Eberle s history spans the years between the Civil War era and the start of World War II encapsulating a time when baseball

was adopted by early settlers then taken up by soldiers sent west and finally by teams formed to express the identity of growing towns and the diverse communities of African Americans Native Americans and Hispanic Americans As elsewhere in the country these teams represented businesses churches schools military units and prisons There were men s teams and women s some segregated by race and others integrated some for adults and others for youngsters Among them we find famous barnstormers like the House of David the soldiers of the Seventh Cavalry who played at Fort Wallace in the 1860s and Babe Didrikson pitching the first inning of a 1934 game in Hays Where some of these games took place baseball is still played and Kansas Baseball 1858 1941 takes us to nine of them some of the oldest in the country These ballparks still used for their original purpose are living history and in their stories Eberle captures a vibrant image of the state s past and a vision of many innings yet to be played a storied history and promising future that readers will be tempted to visit with this book as an informative and congenial guide
