University Art Museum, Oakland Museum of California, 1998-01-01 Examines the California artist's life and work offering reproductions of many of her pieces *Bruce Nauman* Bruce Nauman, 2002-05-29 From the beginning I was trying to see if I could make art that did that Art that was just there all at once Like getting hit in the face with a baseball bat Or better yet like getting hit in the back of the neck You never see it coming it just knocks you down I like that idea very much the kind of intensity that doesn't give you any trace of whether you're going to like it or not Bruce Nauman Bruce Nauman's art is about heightened awareness awareness of spaces we usually don't notice the one under the chair out of which he made a sculpture and sounds we don't listen for the one in the coffin awareness of emotions we suppress or dread It's hard to feel indifferent to work like his Michael Kimmelman New York Times One of America's most important artists Bruce Nauman has worked in a dazzling variety of media since the mid 1960s sculpture photography performance installation sound holography film and video What has been a constant throughout his career however is his persistence in exploring both art as an investigation of the self and the power of language to define that self The latest volume in the acclaimed Art Performance series is the first book to combine the key critical writings on Nauman with the artist's own writings and interviews with him as well as images of his work Bruce Nauman offers a multifaceted portrait of an artist whose determination to experiment with style and form has created a body of work as eclectic and perhaps more influential than that of any other living American artist Vija Celmins Ian Alteveer, 2018-12-11 The beautiful catalogue that accompanies the critically acclaimed exhibition currently on view at the Metropolitan Museum Best known for her striking drawings of ocean surfaces begun in 1968 and revisited over many years both in drawings and paintings Vija Celmins b 1938 has been creating exquisitely detailed renderings of natural imagery for more than five decades The oceans were followed by desert floors and night skies all subjects in which vast expansive distances are distilled into luminous meticulous and mesmerizing small scale artworks For Celmins this obsessive redescribing of the world is a way to understand human consciousness in relation to lived experience The first major publication on the artist in twenty years this comprehensive and lavishly illustrated volume explores the full range of Celmins's work produced since the 1960s drawings and paintings as well as sculpture and prints Scholarly essays a narrative chronology and a selection of excerpts
