

Standards and Recommended Practices developed and implemented by ICAO

Standards and Recommended Practices cover all technical and operational aspects of international civil aviation:

- Safety;
- Personnel licensing;
- Operation of aircraft, aerodromes;
- Air traffic services;
- Accident investigation;
- The environment.

SARPs are formulated in broad terms and restricted to essential requirements. For complex systems SARPs material is constructed in two sections:

- core SARPs - material of a fundamental regulatory nature contained within the main body of the Annexes, and
- detailed technical specifications placed either in Appendices to Annexes or in manuals.
