Coating system for coating traveling webs of material

Inventors: Jorg Pichler; Martin Kustermann; Michael Trefz

Assignee: J. M. Voith GmbH

Patent No.: 5505776

The invention concerns a coating system with at least one web support roll essentially in peripheral direction or in the form of a threading, for metering the coating substance in the gap existing between the web support roll and the metering rolls. A groove forming or groove truing system can be infed in the operation of the coating system can be infed onto the metering rolls.

Application of a thin metal layer to a polymeric substrate

Inventors: Gerd Fischer; Hans-Peter Schildberg; Hartmut Hibst

Assignee: BASF Magnetics GmbH

Patent No.: 5505993

A thin metal layer is applied in a thickness of less than 1,000 nm to a polymeric, web-like substrate which is moved along a cylindrical support in a vacuum chamber containing an evaporator crucible releasing the metal vapor toward the support and two coating screens arranged between the evaporator crucible and the support and defining the limiting angles of incidence of the vapor jet striking the substrate, by a process in which, in the case of predetermined limiting angles of incidence, the amount of metal vapor applied to the substrate can be optimized by means of the arrangement of the coating screens and the position of the evaporator crucible.

Method and apparatus for coating substrates using an air knife

Inventor: William K. Leonard

Assignee: Minnesota Mining and Manufacturing Company

Patent No.: 5505995

The method of coating a substrate with plurality of layers of coatings includes moving the substrate along a path through the coating station. A composite layer is formed of first and second coating fluids. The substrate contacts the flowing composite layer to interpose the first coating fluid between the substrate and the second coating fluid. The composite layer is doctored with a gas from a gas knife to remove some portion of the composite layer from the substrate.

Biotechnology and Software Patent Law Arezzo, E. Ghidini, G., Gustavo Ghidini, 2011 The art of editing is to bring contributions together which melt into one book This is what Emanuela Arezzo and Gustavo Ghidini have achieved with their own critical mind by composing a book of papers in which internationally renowned experts measure the tensions created for the patent system by the needs and problems of protecting biotechnological and software inventions All together they present a comparative law challenge to the very fundamentals of patent protection As such they are or may become a must read Hanns Ullrich College of Europe Bruges Belgium Arezzo and Ghidini have put together a fine collection of essays addressing developments in patent law from general themes to emerging ones in the infotech and biotech sectors It

is notable that the international array of authors includes contributions from both established and rising young scholars all of them ably tackling difficult issues that merit our attention Rudolph J R Peritz New York Law School US The new millennium has carried several challenges for patent law This up to date book provides readers with an important overview of the most critical issues patent law is still facing today at the beginning of the twenty first century on both sides of the Atlantic New technological sectors have emerged each one with its own features with regard to innovation process and pace From the most controversial cases in biotech to the most recent decisions in the field of software and business methods patent patent law has tried to stretch its boundaries in a way to accommodate such new and controversial subject matters into its realm Biotechnology and Software Patent Law will strongly appeal to postgraduate students specializing in IP law international law commercial and business law competition law as well as IP scholars academics and lawyers *Perspectives on Commercializing Innovation* F. Scott Kieff,Troy A. Paredes,2011-11-21 Intellectual property is a vital part of the global economy accounting for about half of the GDP in countries like the United States Innovation competition economic growth and jobs can all be helped or hurt by different approaches to this key asset class where seemingly slight changes in the rules of the game can have remarkable impact This book brings together diverse perspectives from the fields of law economics business and political science to explore the ways varying approaches to intellectual property can positively and negatively impact our economy and society Employing approaches that are both theoretically rigorous and grounded in the real world *Perspectives on Commercializing Innovation* is well suited for practising lawyers managers lawmakers and analysts as well as academics conducting research or teaching in a range of courses in law schools business schools and economics departments at either the undergraduate or graduate level Intellectual Property Law Jay Dratler, Jr.,Stephen M. McJohn,2025-02-28 This book discusses the TRIPs Agreement the Madrid Protocol and other international conventions and compares the basic principles of U S law with Asian European law Innovation in Global Industries National Research Council,Policy and Global Affairs,Board on Science, Technology, and Economic Policy,Committee on the Competitiveness and Workforce Needs of U.S. Industry,2008-05-12 The debate over offshoring of production transfer of technological capabilities and potential loss of U S competitiveness is a long running one Prevailing thinking is that the world is flat that is innovative capacity is spreading uniformly as new centers of manufacturing emerge research and development and new product development follow Innovation in Global Industries challenges this thinking The book a collection of individually authored studies examines in detail structural changes in the innovation process in 10 service as well as manufacturing industries personal computers semiconductors flat panel displays software lighting biotechnology pharmaceuticals financial services logistics and venture capital There is no doubt that overall there has been an acceleration in global sourcing of innovation and an emergence of new locations of research capacity and advanced technical skills but the patterns are highly variable Many industries and some firms in nearly all industries retain leading edge capacity in the United States However the book

concludes that is no reason for complacency about the future outlook Innovation deserves more emphasis in firm performance measures and more sustained support in public policy Innovation in Global Industries will be of special interest to business people and government policy makers as well as professors students and other researchers of economics management international affairs and political science Software Rights Gerardo Con Diaz,2019-10-22 A new perspective on United States software development seen through the patent battles that shaped our technological landscape This first comprehensive history of software patenting explores how patent law made software development the powerful industry that it is today Historian Gerardo Con D az reveals how patent law has transformed the ways computing firms make own and profit from software He shows that securing patent protection for computer programs has been a central concern among computer developers since the 1950s and traces how patents and copyrights became inseparable from software development in the Internet age Software patents he argues facilitated the emergence of software as a product and a technology enabled firms to challenge each other s place in the computing industry and expanded the range of creations for which American intellectual property law provides protection Powerful market forces aggressive litigation strategies and new cultures of computing usage and development transformed software into one of the most controversial technologies ever to encounter the American patent system Patent Strategies for Business Stephen C. Glazier,2000 Strategies for business to use patents to make money software patents business method patents internet patents Patent asset management Legal Issues in the Use of Geospatial Data and Tools for Agriculture and Natural Resource Management Roger A.
