**Information Please Almanac** ,1996      **Our Christian Founding Fathers** William Beckman,2015-06-26 The American public has been told what recent historians wanted them to believe the United States is not a Christian nation This is true in only one respect You dont have to be a Christian following a specific denomination to be an American citizen However the ideological foundation this country is based on Christian principles developed by Christian Founding Fathers Modern historians have distorted these facts To correct these distortions the biographies of the Founding Fathers their actual statements and Christian beliefs are presented in this work The catalyst for the birth of our nation was the moment when Benjamin Franklin incorrectly considered a Deist by many suggested that the quarrelsome Continental Convention recognize how the Creator had listened to and answered their prayers in the past He suggested daily prayer be instituted asking henceforth prayers imploring the assistance of heaven and its blessings on our deliberations be held in this assembly every morning The quarreling continued but the emphasis became how to successfully unite the newly independent colonies The colonies united under Christian principles however over the years those principles and their original intent have been diluted Recognizing the condition of the world today isnt it a good time to renew those principles

The Rescue of the Gale Runner Dennis L. Noble,2024-06-15 This on the spot narrative of the February 1997 loss of three U S Coast Guardsmen from the Quillayute River Station during a maritime rescue is both a commemoration and a report of the failure of the Coast Guard s senior leadership to appreciate and support the work of enlisted men and women at often remote and dangerous small boat stations The first in depth look at a small boat maritime rescue by the U S Coast Guard this book is also the first to describe the role of those at small boat rescue stations and of the policy setters at Coast Guard headquarters in Washington D C Its

author was in the right place at the right time on a night when everything went wrong From the first alarm to the dramatic helicopter rescue of the crew of a foundering sailboat from the onshore rescue of the sole survivor of the first dispatched Coast Guard crew to the tragic losses this man against the sea tale is told largely in the words of the participants and others who were with author Dennis Noble at the station near La Push Washington on the night the tragedy unfolded Noble also provides an analysis of the state of the Coast Guard how its current problems have developed and what effect they have on the service s operations As the story unfolds the views of senior enlisted personnel at the station paint a picture of an overworked small boat rescue force and their feelings toward what they perceive as a distant and in many cases unaware officer corps Noble contrasts these perspectives with those voiced by the investigating commissioned officers and higher ups at Coast Guard headquarters Illustrated with 29 photos and maps Noble s contribution to the annals of maritime history is a riveting account of extraordinary heroism in the face of regrettable human tragedy **Cold War America, 1946 To 1990**

Identity Politics and Ethnic Conflicts in Rwanda and Burundi Godfrey Mwakikagile, 2012 This work looks at conflicts between the Hutu and the Tutsi in Rwanda and Burundi The conflicts between the two groups have sometimes been characterised as ethnic although neither group has fundamental attributes of ethnicity or ethnic identity which separate one from the other They have the same culture They speak the same language And they have had a common history during the past 400 years They have intermingled and have intermarried for so long since the Tutsi arrived in the region about 400 years ago that whatever differences existed between them in the past in terms of culture identity and biology have been erased Yet they do exist as distinct social groups They maintain separate group identities as Hutus and as Tutsis mainly because of the asymmetrical relationship between them Inequity of power has solidified those identities Historically the Tutsi minority have been the rulers Their status as the dominant group was enhanced during colonial rule when the Belgians favoured and recognised them as the traditional rulers superior to the Hutu thus legitimising inequalities between the two groups The differences between them were even given official sanction And the subordinate status of the Hutu majority was used by the Belgians to justify discrimination against them in terms of employment and educational opportunities while favouring the Tutsi The conflict between the two groups is rooted in inequity of power fuelled by stereotypes against the Hutu majority Domination of the Hutu majority by the Tutsi minority which started before the advent of colonial rule has also solidified ethnic identities of the two groups through the years A shared consciousness among the members of each group and their distinctiveness each seeing themselves as different from the other have also played a major role in the evolution and consolidation of these separate identities
