strikes a balance between the academia and the industry by addressing new wireless network architectures enabling mobility and location enhanced applications and services that will give wireless systems the competitive edge over others. The main theme of the book is the advent of wireless networks as an irreplaceable means of global communication as opposed to a mere substitute for or a competitor of wireline networks. Geolocation emerges as the facilitator of mobility and location sensitive services. The fields of geolocation and wireless communications have been forced to merge following the Federal Commission of Communications FCC ruling that obliges wireless providers with emergency caller geolocation.

*Japanese War Crimes and Related Topics: A Guide to Records at the National Archives* United States. National Archives and Records Administration, 2007. This finding aid will help researchers interested in Japanese war crimes war criminals and war crimes trials to navigate the vast holdings of the U S National Archives and Records Administration at College Park NARA. It will also be useful to anyone interested in military intelligence political diplomatic economic financial social and cultural activities in the Far East during 1931-1951 as well as to those searching for information regarding Allied prisoners of war the organization functions and activities of American and Allied agencies and the Japanese occupation of countries and the American occupation of Japan. While not aimed at researchers interested in the strategic and tactical military and naval history of the war in the Far East this finding aid may nevertheless be useful to those with such interests if only to identify record groups and series of records that may bear on those topics. This finding aid covers records from over twenty record groups and includes materials declassified under the Japanese Imperial Government Disclosure Act of 2000 P L 106 567 as well as records that were never classified and those declassified before the passage of the Disclosure Act. Because the process of identifying declassifying accessioning and processing of records under the Act is taking place as this finding is being compiled late arriving records may not be identified in this finding aid. Researchers should consult the IWG Web site <http://www.archives.gov/iwg> for a complete and up to date list of records declassified under the Japanese Imperial Government Disclosure Act. Federal agencies involved in the identification and declassification of relevant classified records ascertained that there were relatively few pertinent records that were still classified. Most relevant records were either never classified or were declassified decades before the Act and were already in NARA's custody. While this finding aid's coverage is broad it is not comprehensive. Researchers may find other relevant series of records within the record groups mentioned or not mentioned. Researchers are encouraged to use other finding aids and consult with NARA staff to locate records of interest. In addition the National Archives at College Park holds nontextual records such as still photographs and motion pictures that researchers may want to examine. Other NARA facilities hold many records and donated material related to World War II including records related to the subjects covered in this finding aid. This is particularly true of the Franklin D Roosevelt the Harry S Truman and the Dwight D Eisenhower archives. Think of archives as vast mountain ranges of records with the archivists guiding the expeditions. Explorations on familiar well trodden paths produce new perspectives when examined with fresh eyes and

imagination     The Tobacco Atlas Judith Mackay, Michael P. Eriksen, 2002 Research in the past five years suggests a bleak picture of the health dangers of smoking with tobacco the biggest single killer of all forms of pollution It is estimated that one person dies every ten seconds due to smoking related diseases This publication considers the history and current position regarding tobacco use as well as providing some predictions for the future of the tobacco epidemic upto the year 2050 It contains a number of full colour world maps and graphics to illustrate the variations between countries and regions Issues discussed include tobacco prevalence and consumption youth smoking the economics of tobacco farming and manufacturing smuggling the tobacco industry promotion profits and trade smokers rights legislative action such as smoke free areas tobacco advertising bans and health warnings     **Informationsgehalt manipulierbarer Periodenergebnisse** Lars Dyrskjot Wellejus, 2008-10-14 Lars Dyrskjot Wellejus analysiert die Reversion eines durch Modifikation von Rechnungslegung entstandenen Informationsdefizits anhand eines informations konomischen Berichtsmodells das die multiperiodige Gewinnverschiebung zu einem ganzzahligen quadratischen Transportkostenproblem stilisiert     Legal Information Buyer's Guide and Reference Manual 2005 Kendall F.
