Information Structure and the Dynamics of Language Acquisition Christine Dimroth, Marianne Starren, 2003-01-01 The papers in this volume focus on the impact of information structure on language acquisition thereby taking different linguistic approaches into account They start from an empirical point of view and examine data from natural first and second language acquisition which cover a wide range of varieties from early learner language to native speaker production and from gesture to Creole prototypes The central theme is the interplay between principles of information structure and linguistic structure and its impact on the functioning and development of the learner's system The papers examine language internal explanatory factors and in particular the communicative and structural forces that push and shape the acquisition process and its outcome On the theoretical level the approach adopted appeals both to formal and communicative constraints on a learner's language in use Two empirical domains provide a testing ground for the respective weight of grammatical versus functional determinants in the acquisition process 1 the expression of finiteness and scope relations at the utterance level and 2 the expression of anaphoric relations at the discourse level

An Old Man Thinking for the First Time James Kalm Fitzgerald,2024-05-22 A seed was dropped by a man that did not know he was sowing seeds A certain seed sprouted a philosophy plant which was noticed by a passerby The passerby a lost soul picked and consumed the plant which awakened a decade s old and long forgotten planned quest That quest was locked away in the mind of the lost soul in a closet of things once planned but long since forgotten In that closet on a bookshelf was a book the lost soul had once thought to read The Holy Bible Covered in scarlet webs this book now stood out as a quest that must be taken The lost soul removed the book from the forgotten things in the closet of his mind and moved it from the mind to his hands The Book was consumed The old man would start thinking differently This thinking it seemed to the old man would be useless unless this thinking might be shared No experience in writing but nevertheless compelled to go fishing for men with words
