**American Modernism and Depression Documentary** Jeff Allred, 2012-11-01 American Modernism and Depression Documentary surveys the uneven terrain of American modernity through the lens of the documentary book Jeff Allred argues that photo texts of the 1930s stage a set of mediations between rural hinterlands and metropolitan areas between elite producers of culture and the forgotten man of Depression era culture between a myth of consensual national unity and various competing ethnic and regional collectivities In light of the complexity this entails this study takes issue with a critical tradition that has painted the documentary expression of the 1930s as a simplistic and propagandistic divergence from literary modernism Allred situates these texts and the documentary modernism they represent as a central part of American modernism and response to American modernity as he looks at the impoverished sharecroppers depicted in the groundbreaking Let Us Now Praise Famous Men the disenfranchised African Americans in Richard Wright's polemical 12 Million Black Voices and the experiments in Depression era photography found in Life magazine

**Becoming American? The Art and Identity Crisis of Yasuo Kuniyoshi** ShiPu Wang, 2011-05-31 A few short days has changed my status in this country although I myself have not changed at all On December 8 1941 artist Yasuo Kuniyoshi 1889-1953 awoke to find himself branded an enemy alien by the U S government in the aftermath of Japan's attack on Pearl Harbor The historical crisis forced Kuniyoshi an migr Japanese with a distinguished career in American art to rethink his pictorial strategies and to

confront questions of loyalty assimilation national and racial identity that he had carefully avoided in his prewar art As an immigrant who had proclaimed himself to be as American as the next fellow the realization of his now fractured and precarious status catalyzed the development of an emphatic and conscious identity construct that would underlie Kuniyoshi's art and public image for the remainder of his life Drawing on previously unexamined primary sources *Becoming American* is the first scholarly book in over two decades to offer an in depth and critical analysis of Yasuo Kuniyoshi's pivotal works including his anti Japan posters and radio broadcasts for U S propaganda and his coded and increasingly enigmatic paintings within their historical contexts Through the prism of an identity crisis the book examines Kuniyoshi's imagery and writings as vital means for him to engage albeit often reluctantly and ambivalently in discussions about American democracy and ideals at a time when racial and national origins were grounds for mass incarceration and discrimination It is also among the first scholarly studies to investigate the activities of Americans of Japanese descent outside the internment camps and the intense pressures with which they had to deal in the aftermath of Pearl Harbor As an art historical book *Becoming American* foregrounds broader historical debates of what constituted American art a central preoccupation of Kuniyoshi's artistic milieu It illuminates the complicating factors of race diasporas and ideology in the construction of an American cultural identity Timely and provocative the book historicizes and elucidates the ways in which minority artists have been and continue to be both championed and marginalized for their cultural and ethnic difference within the twentieth century American art canon

Herman Lebovics a preeminent cultural historian of France develops a historical argument with striking contemporary relevance empire abroad inevitably undermines democracy at home These essays which Lebovics wrote over the past decade demonstrate the impressive intellectual range of his work Focusing primarily on France and to a lesser extent on the United Kingdom he shows how empire and its repercussions have pervaded and corroded Western cultural intellectual and social life

from the mid nineteenth century to the present Some essays explore why modern Western democratic societies needed colonialism Among these is an examination of the seventeenth century philosopher John Locke s prescient conclusion that liberalism could only control democratic forces with the promise of greater wealth enabled by empire In other essays Lebovics considers the relation between overseas rule and domestic life Discussing George Orwell s tale Shooting an Elephant and the careers of two colonial officers one British and one French he contemplates the ruinous authoritarianism that develops among the administrators of empire Lebovics considers Pierre Bourdieu s thinking about how colonialism affected metropolitan French life and he reflects on the split between sociology and ethnology which was partly based on a desire among intellectuals to think one way about metropolitan populations and another about colonial subjects Turning to the arts Lebovics traces how modernists used the colonial exotic to escape the politicized and contested modernity of the urban West Imperialism and the Corruption of Democracies is a compelling case for cultural history as a key tool for understanding the injurious effects of imperialism and its present day manifestations within globalization
