Heath,2013-08-20 When initially published in 2005 the two volume Encyclopedia of Public Relations was the first and most authoritative compilation of the subject It remains the sole reference source for any library serving patrons in business communication and journalism as it explores the evolution of the field with examples describing the events changing practices and key figures who developed and expanded the profession Reader s Guide topics include Crisis Communications Management Cyberspace Ethics Global Public Relations Groups History Jargon Management Media News Organizations Relations Reports Research and Theories Models Led by renowned editor Robert L Heath with advisory editors and contributors from around the world the set is designed to reach a wide array of student readers who will go on to serve as opinion leaders for improving the image and ethics of the practice The Second Edition continues to explore key challenges facing the profession such as earning the trust and respect of critics and the general public Much greater emphasis and space will be placed on a theme that was just emerging when the First Edition appeared the Internet and social media as public relations tools International coverage and representation has been greatly expanded as well Finally biographies which are now widely available on the Web have been deleted to give room to areas of enhanced coverage and biographical material are included where appropriate within the context of topical entries However a long entry on women pioneers in public relations has been included as an appendix

**The Global Public Relations Handbook, Revised and Expanded Edition** Krishnamurthy Sriramesh,Dejan Vercic,2009-01-13 Expanding on the theoretical framework for studying and practicing public relations around the world The Global Public Relations Handbook Revised and Expanded Edition extends the discussion in the first volume on the history development and current status of the public relations industry from a global perspective This revised edition offers twenty new chapters in addition to the original contents It includes fourteen additional country or regionally focused chapters exploring public relations practice in Africa Asia Europe and the Americas Contributors use a theoretical framework to present information on the public relations industry in their countries and regions They also focus on such factors as the status of public relations education in their respective countries and professionalism and ethics Each country specific chapter includes a case study typifying public relations practice in that country Additional new chapters discuss political economy activism international public relations and United Nations public affairs      O'Dwyer's Directory of Public Relations Executives ,1999      **Reputation Management** John Doorley,Helio Fred Garcia,2007 Reputation Management is a how to guide for professionals and students in corporate communications that rests on the premise that corporate reputations can be measured monitored and managed      **Trust Us, We're Experts PA** Sheldon Rampton,John Stauber,2002-01-14 The authors of Toxic Sludge Is Good for You unmask the sneaky and widespread methods industry uses to influence opinion

through bogus experts doctored data and manufactured facts We count on the experts We count on them to tell us who to vote for what to eat how to raise our children We watch them on TV listen to them on the radio read their opinions in magazine and newspaper articles and letters to the editor We trust them to tell us what to think because there s too much information out there and not enough hours in a day to sort it all out We should stop trusting them right this second In their new book *Trust Us We re Experts How Industry Manipulates Science and Gambles with Your Future* Sheldon Rampton and John Stauber authors of *Toxic Sludge Is Good For You* offer a chilling expos on the manufacturing of independent experts Public relations firms and corporations know well how to exploit your trust to get you to buy what they have to sell Let you hear it from a neutral third party like a professor or a pediatrician or a soccer mom or a watchdog group The problem is these third parties are usually anything but neutral They have been handpicked cultivated and meticulously packaged in order to make you believe what they have to say preferably in an objective format like a news show or a letter to the editor And in some cases they have been paid handsomely for their opinions For example You think that nonprofit organizations just give away their stamps of approval on products Bristol Myers Squibb paid 600 000 to the American Heart Association for the right to display AHA s name and logo in ads for its cholesterol lowering drug Pravachol SmithKline Beecham paid the American Cancer Society 1 million for the right to use its logo in ads for Beecham s Nicoderm CQ and Nicorette anti smoking ads You think that a study out of a prestigious university is completely unbiased In 1997 Georgetown University s Credit Research Center issued a study which concluded that many debtors are using bankruptcy as an excuse to wriggle out of their obligations to creditors Former U S Treasury Secretary Lloyd Bentsen cited the study in a Washington Times column and advocated for changes in federal law to make it harder for consumers to file for bankruptcy relief What Bentsen failed to mention was that the Credit Research Center is funded in its entirety by credit card companies banks retailers and others in the credit industry that the study itself was produced with a 100 000 grant from VISA USA Inc and MasterCard International and that Bentsen himself had been hired to work as a credit industry lobbyist You think that all grassroots organizations are truly grassroots In 1993 a group called Mothers Opposing Pollution MOP appeared calling itself the largest women s environmental group in Australia with thousands of supporters across the country Their cause A campaign against plastic milk bottles It turned out that the group s spokesperson Alana Maloney was in truth a woman named Janet Rundle the business partner of a man who did P R for the Association of Liquidpaperboard Carton Manufacturers the makers of paper milk cartons You think that if a scientist says so it must be true In the early 1990s tobacco companies secretly paid thirteen scientists a total of 156 000 to write a few letters to influential medical journals One biostatistician received 10 000 for writing a single eight paragraph letter that was published in the Journal of the American Medical Association A cancer researcher received 20 137 for writing four letters and an opinion piece to the Lancet the Journal of the National Cancer Institute and The Wall Street Journal Rampton and Sta
