Multicultural Geographies John W. Frazier, Florence M. Margai, 2010-09-01 In an approach that differs from other publications on U S multiculturalism Multicultural Geographies examines the changing patterns of race and ethnicity in the United States from geographical perspectives It reflects the significant contributions made by geographers in recent years to our understanding of the day to day experiences of American minorities and the historical and current processes that account for living spaces persistent patterns of segregation and group inequalities and the complex geographies that continue to evolve at local and regional levels across the country One of the book s underlying themes is the dynamic and complex nature of U S multiculturalism and the academic difficulty in evaluating it from a single viewpoint or theoretical stance As such Multicultural Geographies is derived from the joint efforts of selected scholars to bring together diverse perspectives and approaches in documenting the experiences of American minorities and the issues that affect them *Monographic Series* Library of Congress, Contemporary Ethnic Geographies in America Christopher A. Airriess, 2015-09-28 Ethnic diversity has marked the United States from its inception and it is impossible to separate ethnicity from an understanding of the United States as a country and Americans as a people Since the 1965 Immigration and Nationality Act the United States has experienced watershed transformations in its social cultural and ethnic geographies Considering the impact of these wide ranging changes this unique text examines the experiences of a range of ethnic groups in both historical and contemporary context It begins by laying out a comprehensive conceptual framework that integrates immigration theory globalization transnational community formation and urban cultural and economic geography The contributors then present a rich set of case studies of the key Latin American Asian American and Middle Eastern communities comprising the vast majority of newer immigrants Each case offers a brief historical overview of the group s immigration experience and settlement patterns and discusses its contemporary socioeconomic dynamics All these communities have transformed and been transformed by the places in which they have settled Exploring these changing communities places and landscapes this book offers a nuanced understanding of the evolution of America s contemporary ethnic geographies **Bibliographic Guide to North American History**, 1985 **Bibliography of Geography** Chauncy Dennison Harris, 1984 Pt 1 Introduction to general aids pt 2 Regional v 1 The United States of America Subaltern Geographies Tariq Jazeel, Stephen Legg, 2024-08-20 Subaltern Geographies stands as the inaugural comprehensive exploration into the intersection of subaltern studies historical breakthroughs and the critical methodologies of cultural urban historical and political geography Editors Tariq Jazeel and

Stephen Legg embark on an intellectual journey to scrutinize the relationship between space and spatial categorizations posing pivotal questions about the methodological philosophical potential that a geographically grounded engagement with the concept of subalternity offers in both historical and contemporary contexts This edited volume seeks to unravel the implications and impact of subaltern studies scholarship on geographical thought while navigating beyond methodological nationalism and Eurocentrism The book s contributors comprising historians geographers urban theorists and a social activist present diverse studies spanning colonial India post colonial Tanzania Andean Ecuador Delhi s recycling centres Bolivian protest sites the Indian Ocean and urban fragments The volume contends that politicointellectual skills are vital for conceiving and representing subaltern geographies This craft involves grappling with the complexities of translation mistranslation and the untranslatability inherent in radically different geographical descriptions The book further explores the challenges of retrieving notionally subaltern space from archives or through ethnographic and textual research Lastly it addresses the representational hurdles posed by ordinariness and everyday spatiality in contrast to conventional geographical descriptions
