Armand Hammer:

Bulletin of the Atomic Scientists, 1986-08 The Remarkable Life of Dr. Armand Hammer Bob Considine, 1975

Considine's writing style goes onto any subject like a piece of contact paper on furniture and with about as profound an effect. His biography of the Occidental Petroleum Oxy sultan a self made millionaire who engineered grain deals with Lenin sold the Hearst art collection to the great unwashed in Gimbels collected the finest herd of Black Angus Aberdeens in America and finally turned his attention to oil at the age of fifty nine prudently masks all individuality with a thin film of unconvincing hagiography. Dr Hammer no relation to the baking soda company got waylaid by other interests on the way to a medical career he was starting pencil factories in the USSR and collecting icons long before America recognized the Red government or the Soviets recognized the value of their art heritage. He cornered the market on barrel staves just in time for the end of Prohibition made forays into the grain alcohol potato alcohol and both bonded and blended bourbon markets and found time for public spirited gestures like buying Campobello to donate it to the U S and Canadian governments. Much is made here of Hammer's multimillion dollar art collection and of his hobnobbing with the great. Not the slightest mention is made of a 1974 disagreement with the IRS about alleged overvaluation of art works Hammer used as charitable donations for tax purposes or those other nasty allegations about channeling illegal contributions to Nixon's 1972 campaign through Governor Tim Babcock of Montana. The few legal squabbles Considine does mention are of course all due to the greed malice or underhandedness of others and the disastrous slump in Oxy's stock since 1972 is blandly attributed to a tactless remark by the Secretary of Commerce pooh poohing the huge fertilizer deal being negotiated between Oxy and the Russians. An instructive exercise in bowdlerization AbeBooks.com The Secret World of American Communism Harvey Klehr, John Earl Haynes, Fridrikh Igorevich Firsov, 1995-01-01. The hidden world of American communism can now be examined with the help of documents from the recently opened archives of the former Soviet Union. Interweaving narrative and documents the authors of this book present a convincing new picture of the Communist Party of the United States of America CPUSA providing proof that it was involved in espionage and other subversive activities. 16 illustrations **Merv** Merv Griffin, 2007-10-30. Layne Collins, 1983-1987 Martha Layne Collins, Libby Fraas, The ongoing struggle for civil rights and social justice lies at the heart of America's evolving identity. Spanning thirty-five years of Sitkoff's distinguished career, the collection features an in-depth examination of the Great Depression and its effects on African Americans, the intriguing story of the labor movement and its relationship to African American workers, and a discussion of the effects of World War II on the civil rights movement. His precise analysis illuminates multifaceted racial issues, including the New Deal's impact on race relations, the Detroit Riot of 1943, and connections between African Americans, Jews, and the Holocaust.

Building a new New World, Jean-Louis Cohen, 2021-01-12. An essential exploration of how Russian ideas about the United States shaped architecture and urban design from the czarist era to the fall of the U.S.S.R. Idealized representations of America as both an aspiration and a menace played an important role in shaping Russian architecture and urban design from the American Revolution until the fall of the Soviet Union. Jean-Louis Cohen traces the powerful concept of Amerikanizm and its impact on Russia's built environment from early czarist interest in Revolutionary America through the spectacular World's Fairs of the 19th century to department stores, skyscrapers, and factories built in Russia using American methods during the 20th century. Visions of America also captivated the Russian avant-garde from El Lissitzky to Moisei Ginzburg, and Cohen explores the ongoing artistic dialogue maintained between the two countries at the mid-century and in the late Soviet era following a period of strategic competition. This first major study of Amerikanizm in the architecture of Russia makes a timely contribution to our understanding of modern architecture and its broader geopolitics.

An Etruscan Spring, Lorna J. Shaw, 2015-09-10. *AN ETRUSCAN SPRING* is the sequel to *A Kenyan Winterlude*. After their adventures in Kenya and Uganda, Margaret and Douglas Parker arrive in Rome to begin a belated Italian honeymoon.

Margaret becomes weary after touring the city's attractions. And with a respiratory infection she agrees to her husband's suggestion that they drive north to Tuscany to rest at their small hotel on the beaches of the Tyrrhenian Sea. Margaret basks in the sunshine while reclining on the balcony of their room. Doug takes advantage of the time to prowl through the dusty museum at Tarquinia where he meets and befriends the curator, a British archaeologist Philip Longfellow who takes him around to various newly discovered digs. Margaret recovers to accompany them to an ancient Etruscan village on the steep hillside near Volterra. They wander about examining inscriptions on rocks. An earthquake occurs triggering a massive earthslide. The terrified Parkers escape by jumping into an excavation but Philip is badly injured with a complex fracture of his leg. Doug administers first aid and lights a bonfire as twilight is near. Margaret volunteers to remain with the victim while Doug leaves to get the car to summon help. The earthslide has scraped away the soil covering a royal tomb nearby compromising the strength of the ceiling. Doug's weight collapses the ceiling and he falls into the depths of the tomb encountering demonic forces where he calls out to Jesus to save him. A neighbouring farmer arrives attracted by the fire. His dog discovers the hole in the tomb ceiling. The proper authorities arrive to aid Philip and to extract the unconscious Doug from the tomb with a dislocated shoulder and a broken collar bone. He is immediately transported to the hospital in Siena. Margaret joins him and learns Philip Longfellow is now at the same facility. She goes to see Philip and discovers he is a homosexual. When Doug is well enough to use a wheelchair they go to see Philip and meet his partner, a suave wealthy tycoon in the Italian film industry, Fredrico Scalise who is very helpful to the Parkers. It is determined that Philip is exhibiting symptoms of an advanced case of AIDS. Both Parkers are tested positive for HIV. Philip is sent to a famous clinic in Paris for treatment of his condition. Fredrico also suffers the same symptoms and insists that the Parkers be treated at the clinic at his expense because of their care for his beloved Philip.

Capital Culture Neil Harris, 2022-12-22. American art museums flourished in the late twentieth century and the impresario leading much of this growth was J. Carter Brown, director of the National Gallery of Art in Washington DC from 1969 to 1992. Along with S. Dillon Ripley who served as Smithsonian secretary for much of this time, Brown reinvented the museum experience in ways that had important consequences for the cultural life of Washington and its visitors as well as for American museums in general. In Capital Culture, distinguished historian Neil Harris provides a wide-ranging look at Brown's achievement and the growth of museum culture during this crucial period. Harris combines his in-depth knowledge of American history and culture with extensive archival research and he has interviewed dozens of key players to reveal how Brown's showmanship transformed the National Gallery. At the time of the Cold War, Washington itself was growing into a global destination with Brown as its devoted booster. Harris describes Brown
