London museum, 1957 **Indian Arms and Armour: Swords and daggers** Gayatri Nath Pant, 1978 **A Guide to the Sources of British Military History** Robin Higham, 2015-10-05 Designed to fill an overlooked gap this book originally published in 1972 provides a single unified introduction to bibliographical sources of British military history Moreover it includes guidance in a number of fields in which no similar source is available at all giving information on how to obtain access to special collections and private archives and links military history especially during peacetime with the development of science and technology The History and Art of Personal Combat Arthur Wise, 2014-01-15 A comprehensive illustrated history of classical and historical swordsmanship this volume details uses of the broadsword two hander and rapier as well as the dagger bayonet and halberd

The Bishops' Wars Mark Charles Fissel, 1994-03-31 A study of Charles I's two unsuccessful attempts to bring religious conformity to Scotland **Methods and Practice of Elizabethan Swordplay** Craig Turner, Tony Soper, 2016-03-16 Featuring period drawings and prints of swordplay this book examines and compares the only three existing Elizabethan fencing manuals written in English before 1600 In addition it explores the influence of a new form of violence introduced into Elizabethan culture by the invention of the rapier **A bibliography of British military history** Anthony Bruce, 2016-12-19 No detailed description available for A bibliography of British military history A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth

centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense Heraldry and Armor of the Middle Ages Marvin H. Pakula,1972 Heraldry was a colorful system of personal identification in the Middle Ages and this volume outlines carefully its many components and practices
