Arnold Select Poems And Prose:

Selected Poems and Prose Matthew Arnold, Miriam Farris Allott, 1991 **Selected Poems** Matthew Arnold, 1898

Selected Poems and Prose Matthew Arnold, 1964 **Robert Browning: Selected Poems** John Woolford, Daniel Karlin, Joseph Phelan, 2013-11-19 Robert Browning 1812-1889 was one of the defining figures of the Victorian age. Famous in his lifetime for his elopement and marriage to Elizabeth Barratt, his critical reputation grew steadily in the years following her early death. Browning's mastery of dramatic verse was evident throughout his career, from such chillingly unforgettable monologues as *My Last Duchess* and *Porphyria* to the mature work included in his collection *Dramatis Personae*. This selection, chosen by leading scholars, reveals the innovation, complexity, and profound psychological insight that have ensured Browning's enduring reputation and his continuing appeal to readers today. *Browning Selected Poems* results from a completely fresh appraisal of the canon, text, and context of the writer's work. The poems are presented in the order of their composition and in the text in which they were first published, giving a unique insight into the development of Browning's art. An introduction and chronology offer useful background material, whilst annotations and headnotes provide details of composition, publication, sources, and contemporary reception. This authoritative yet accessible selection should become the first point of reference for scholar, student, and general reader alike.

A Critical Introduction to Law and Literature Kieran Dolin, 2007-03-15 Despite their apparent separation, law and literature have been closely linked fields throughout history. Linguistic creativity is central to the law, with literary modes such as narrative and metaphor infiltrating legal texts. Equally, legal norms of good and bad conduct, of identity and human responsibility, are reflected or subverted in literature's engagement with questions of law and justice. Law seeks to regulate creative expression, while literary texts critique and sometimes openly resist the law. Kieran Dolin introduces this interdisciplinary field, focusing on the many ways that law and literature have addressed and engaged with each other. He charts the history of the shifting relations between the two disciplines, from the open affiliation between literature and law in the sixteenth century Inns of Court to the less visible links of contemporary culture. Originally published in 2007, this book provides an accessible guide to one of the most exciting areas of interdisciplinary scholarship.

Selected Poems Alexander Pope, 1965 **Meeting Without Knowing It** Alexander Bubb, 2016-02-11 *Meeting Without Knowing It* compares Rudyard Kipling and W. B. Yeats in the formative phase of their careers, from their births in 1865 up to 1903. The argument consists of parallel readings wed to a biographic structure. Reading the two poets in parallel often yields remarkable discursive echoes. For example, both men were similarly preoccupied with the visual arts, with heroism, with folklore, balladry, and the demotic voice. Both struck vatic postures and made bids for public authority premised on an appeal to what they considered the

mythopoeic impulse in fin de siècle culture My methodology consists in identifying these mutual echoes in their poetry and political rhetoric before charting them against intersections in their lives Kipling and Yeats were for much of their careers irreconcilable political enemies However a cross reading of the two poets bardic ambitions heroic tropes and interpretations of history reveals that to achieve their opposed political ends they frequently partook of a common discourse Supplementing this analysis with biographical context we can trace these shared concerns to their late 19th century artistic upbringing and to the closely linked social circles which they inhabited in fin de siècle London It is in fact their very mutuality during the 1890s which lent rancour to their ideological division after the Boer War In turn acrimony and denunciation only served to bind together all the more intimately in an argumentative spiral of revolving discourses two men who were often proximate but who actually met only in cartoons and satirical gossip
