**Exophilosophy** Richard Playford, 2024-12-09 This volume addresses philosophical questions raised by the possibility of alien life and extraterrestrial intelligence The different philosophical perspectives and approaches presented across the chapters will provide a foundation for future work on exophilosophy Interest in space space exploration and alien life has never been greater In popular culture for example it has proven a persistent theme in science fiction films e g Star Trek Star Wars books e g H G Wells Arthur C Clarke Ray Bradbury and computer games e g Sid Meier s Alpha Centauri as well as bestselling non fiction books von D niken s multimillion selling Chariots of the Gods and hit documentary shows e g Ancient Aliens There has also been persistent interest in these topics amongst scientists with organizations such as NASA and SETI having an

enormous impact on both the scientific and popular imagination Yet curiously the topic has received relatively little philosophical attention Whilst certain aspects of these topics remain within the proper purview of the sciences a host of philosophical questions are raised by the possibility of alien life and extraterrestrial intelligences and the possibility of our coming into contact with them This collection of essays will examine some of these questions whilst laying the groundwork for future study in an as yet under researched area of philosophy Exophilosophy is essential reading for scholars and students with an interest in space and philosophy especially those working in philosophy of science metaphysics epistemology ethics philosophy of language and philosophy of religion
