Art And Authority In Renaissance Milan:

Art and Authority in Renaissance Milan Evelyn S. Welch, 1995-01-01 Milan was one of the largest and most important cities in Renaissance Italy Controlled by the Visconti and Sforza dynasties from 1277 until 1500 its rulers were generous patrons of the arts responsible for commissioning major monuments throughout the city and for supporting artists such as Giovanni di Balduccio Filarete Bramante and Leonardo da Vinci But the city was much more than its dukes Milan had a distinct civic identity one that was expressed above all through its neighbourhood religious and charitable associations This book moves beyond standard interpretations of ducal patronage to explore the often overlooked city itself showing how the allegiances of the town hall and the parish related to those of the servants and aristocrats who frequented the Visconti and Sforza court In this original and stimulating interdisciplinary study Evelyn Welch illustrates the ways in which the myths of Visconti and Sforza supremacy were created Newly discovered material for major projects such as the cathedral hospital and castle of Milan permits a greater understanding of the political economic and architectural forces that shaped these extraordinary buildings The book also explores the wider social networks of the artists themselves Leonardo da Vinci for example is de mythologised far from being an isolated highly prized court artist he spent his almost eighteen years in the city working within the wider Milanese community of painters sculptors goldsmiths and embroiderers The broad perspective of the book ensures that any future study of the Renaissance will have to re evaluate the place of Milan in Italian cultural history

Music in the Collective Experience in Sixteenth-Century Milan Christine Suzanne Getz, 2023-05-31 Renaissance music like its sister arts was most often experienced collectively While it was possible to read Renaissance polyphony silently from a music manuscript or print improvise alone or perform as a soloist the very practical nature of Renaissance music defied individualism The reading and improvisation of polyphony was most frequently achieved through close co operation and this mutual endeavour extended beyond the musicians to include the society to which it is addressed In sixteenth century Milan music an art traditionally associated with the court and cathedral came to be appropriated by the old nobility and the new aristocracy alike as a means of demonstrating social primacy and newly acquired wealth As class mobility assumed greater significance in Milan and the size of the city expanded beyond its Medieval borders music making became ever more closely associated with public life With its novel structures and diverse urban spaces sixteenth century Milan offered an unlimited variety of public performance arenas The city s political and ecclesiastical authorities staged grand processions church services entertainments and entries aimed at the propagation of both church and state Yet the private citizen utilized such displays as well creating his own miniature spectacle in a visual and an aural imitation of the ecclesiastical and political panoply of the age Using archival documents music prints manuscripts and contemporary writing Getz examines the musical culture of sixteenth century Milan via its life within the city s most influential social institutions to show how fifteenth century courtly traditions were adapted to the public arena The book considers the relationship of the

primary cappella musicale including those of the Duomo the court of Milan Santa Maria della Scala and Santa Maria presso San Celso to the sixteenth century institutions that housed them In addition the book investigates the musician s role as an actor and a functionary in the political religious and social spectacles produced by the Milanese church state and aristocracy within the city s diverse urban spaces Furthermore it establishes a context for the numerous motets madrigals and lute intabulations composed and printed in sixteenth century Milan by examining their function within the urban milieu in which they were first performed Finally it musically documents Milan s transformation from a ducal state dominated by provincial traditions into a mercantile centre of international acclaim Such an important study in Italian Renaissance music will therefore appeal to anyone interested in the culture of Renaissance Italy

Cultural Exchange in Early Modern Europe Robert Muchembled, William Monter, 2006 This 2007 volume reveals how a first European identity was forged from the fifteenth to the seventeenth centuries Cultural exchange played a central role in the elites fashioning of self The cultures they exchanged and often integrated with included palaces dresses and jewellery but also gestures and dances

European Art of the Fifteenth Century Stefano Zuffi, 2005 Influenced by a revival of interest in Greco Roman ideals and sponsored by a newly prosperous merchant class fifteenth

century artists produced works of astonishingly innovative content and technique The International Gothic style of painting still popular at the beginning of the century was giving way to the influence of Early Netherlandish Flemish masters such as Jan van Eyck who emphasized narrative and the complex use of light for symbolic meaning Patrons favored paintings in oil and on wooden panels for works ranging from large hinged altarpieces to small increasingly lifelike portraits In the Italian city states of Florence Venice and Mantua artists and architects alike perfected existing techniques and developed new ones The painter Masaccio mastered linear perspective the sculptor Donatello produced anatomically correct but idealized figures such as his bronze nude of David and the brilliant architect and engineer Brunelleschi integrated Gothic and Renaissance elements to build the self supporting dome of the Florence Cathedral This beautifully illustrated guide analyzes the most important people places and concepts of this early Renaissance period whose explosion of creativity was to spread throughout Europe in the sixteenth century *Picturing Machines 1400-1700* Wolfgang Lefevre,2023-12-26 How technical drawings shaped early engineering practice Technical drawings by the architects and engineers of the Renaissance made use of a range of new methods of graphic representation These drawings among them Leonardo da Vinci's famous drawings of mechanical devices have long been studied for their aesthetic qualities and technological ingenuity but their significance for the architects and engineers themselves is seldom considered The essays in *Picturing Machines 1400-1700* take this alternate perspective and look at how drawing shaped the practice of early modern engineering They do so through detailed investigations of specific images looking at over 100 that range from sketches to perspective views to thoroughly constructed projections In early modern engineering practice drawings were not merely visualizations of ideas but acted as models that shaped ideas *Picturing Machines* establishes basic categories for the origins purposes functions and contexts of early modern engineering illustrations then treats a series of topics that not only focus on the way drawings became an indispensable means of engineering but also reflect the main stages in their historical development The authors examine the social interaction conveyed by early machine images and their function as communication between practitioners the knowledge either conveyed or presupposed by technical drawings as seen in those of Giorgio Martini and Leonardo drawings that required familiarity with geometry or geometric optics including the development of architectural plans and technical illustrations that bridged the gap between practical and theoretical mechanics *Odes* Francesco Filelfo,2009 The *Odes* completed in the mid 1450s constitute the first complete cycle of Horatian odes since classical antiquity This volume features the Latin text and an English translation **Da Vinci's Ghost** Toby Lester,2012-02-07 An award winning author takes on the genesis of Leonardo da Vinci's Vitruvian Man In this modest drawing da Vinci attempted nothing less than to calibrate the harmonies of the universe and understand the central role man played in the cosmos Lester brings Vitruvian Man to life resurrecting the ghost of an unknown da Vinci **Venetian Colour** Paul Hills,1999-01-01 Discusses the relation of Venetian color to social cultural and environmental factors *The Early Modern Italian Domestic Interior, 1400-1700* Erin J.

Campbell, Stephanie R. Miller, Elizabeth Carroll Consavari, 2016-03-23 Emphasizing on the one hand the reconstruction of the material culture of specific residences and on the other the way in which particular domestic objects reflect shape and mediate family values and relationships within the home this volume offers a distinct contribution to research on the early modern Italian domestic interior Though the essays mainly take an art historical approach the book is interdisciplinary in that it considers the social implications of domestic objects for family members of different genders age and rank as well as for visitors to the home By adopting a broad chronological framework that encompasses both Renaissance and Baroque Italy and by expanding the regional scope beyond Florence and Venice to include domestic interiors from less studied centers such as Urbino Ferrara and Bologna this collection offers genuinely new perspectives on the home in early modern Italy

The Lady Speaks W.N. Varvel, 2014-02-13 This thoroughly original work of art history presents a provocative theory about Leonardo da Vinci the Mona Lisa and Theological Gender Equality The famous Mona Lisa smile has mystified viewers and intrigued historians for centuries Completed in 1515 Leonardo da Vinci's masterwork has hidden the lady's secret well Now after years of research and analysis W N Varvel has decoded the hidden meanings of Mona Lisa In *The Lady Speaks* Varvel reveals the vital message her smile conveys a secret too dangerous for the artist to acknowledge during his life but one which he hoped future generations would understand and embrace The coming of the New Jerusalem depends on the world's recognizing what lies behind the Mona Lisa smile Detailing how the artist wove a calculated fabric of clues symbols and images Varvel establishes not only da Vinci's but also Michelangelo's belief in Theological Gender Equality In a thrilling achievement of art history detective work Varvel tracks clues links previously unnoticed connections recreates scenarios identifies villains and heroes and presents a persuasive case for what the lady must be thinking

The Court Cities of Northern Italy Charles M. Rosenberg, 2010-06-21 This volume examines the painting sculpture decorative arts and architecture produced in nine important court cities of Italy during the course of the fourteenth fifteenth and sixteenth centuries Although each chapter represents a separate study of a particular geographical locale many common themes emerge This volume gives a multifaceted consideration of the art created for princes prelates confraternities and civic authorities works displayed in public squares private palaces churches and town halls Including six essays specially commissioned that explore the interaction of artists and their civic and or courtly patrons within the context of prevailing cultural political and religious circumstances *The Court Cities of Northern Italy* provides a rich supplement to traditional accounts of the artistic heritage of the Italian Renaissance which has traditionally focused on the Florentine Venetian and Roman traditions The book includes 35 color plates and 221 black and white illustrations

[Routledge Revivals: Medieval Italy \(2004\)](#) Christopher Kleinhenz, 2017-07-05 First published in 2004 *Medieval Italy An Encyclopedia* provides an introduction to the many and diverse facets of Italian civilization from the late Roman empire to the end of the fourteenth century It presents in two volumes articles on a wide range of topics including history literature art music urban

development commerce and economics social and political institutions religion and hagiography philosophy and science This illustrated A Z reference is a cross disciplinary resource and will be of key interest not only to students and scholars of history but also to those studying a range of subjects as well as the general reader Netherlandish and Italian Female Portraiture in the Fifteenth Century Elisabetta Toreno,2025-10-01 This book investigates the aesthetic and conceptual characteristics of fifteenth century female portraiture on panel Portraits of women increased substantially during this century They formed part of a material and a visual culture borne out of the rapid rise of an oligarchy from entrepreneurial activities that was especially advanced in the urbanised territories of Italy and Flanders For this reason the portraits in this book are by Netherlandish and Italian painters They are simultaneously illustrative of the emancipation of the genre from its medieval idiom and of the responses to the matrix of patriarchy under which society was organised Patriarchy is an androcentric structure that places women in a paradoxical situation of legal and social disenfranchisement on the account of purported psychophysical inadequacy whilst making them the catalysts through arranged marriages for the success of the spheres of power which are controlled by men Thus these portraits are also a window into women s lives in this structure This book is the first systematic study of their sign system and of the feminine experience of seeing and being seen at the intersection of disciplines that include art history anthropology legal history philosophy The surprising results suggest new interpretations of form and function in female portraiture women s active role in the imaging process and the early instances of a pro women ideology **Engaging Symbols** Adrian W. B. Randolph,2002-01-01 Randolph shows how engaging political symbols were grounded in a revolutionary way in amorous discourses that drew on metaphors of affection desire courtship betrothal marriage homo and hetero eroticism and procreation BOOK JACKET
