Art and History of Paris and Versailles Georges Poisson,1996 Discover the rich history and culture of some of the world's most influential historical places with these highly illustrated books packed with informative and enlightening descriptions and information **The World of André Le Nôtre** Thierry Mariage,1999 But as Thierry Mariage makes clear in this detailed and lucid book the garden style that Le Nôtre brought to perfection need not be seen in opposition to the later English one rather he claims they represent two points along a continuum that exists between the natural and cultural worlds

Picturing War in France, 1792-1856 Katie Hornstein,2018-02-06 From the walls of the Salon to the pages of weekly newspapers war imagery was immensely popular in postrevolutionary France This fascinating book studies representations of contemporary conflict in the first half of the 19th century and explores how these pictures provided citizens with an imaginative stake in wars being waged in their name As she traces the evolution of images of war from a visual form that had previously been intended for mostly elite audiences to one that was enjoyed by a much broader public over the course of the 19th century Katie Hornstein carefully considers the influence of emergent technologies and popular media such as lithography photography and panoramas on both artistic style and public taste With close readings and handsome reproductions in various media from monumental battle paintings to popular prints *Picturing War in France 1792 1856* draws on contemporary art criticism war reporting and the burgeoning illustrated press to reveal the crucial role such images played in shaping modern understandings of conflict **European Porcelain in The Metropolitan Museum of Art**

Jeffrey Munger,Elizabeth Sullivan,2018-05-09 Porcelain imported from China was the most highly coveted new medium in sixteenth and early seventeenth century Europe Its pure white color translucency and durability as well as the delicacy of decoration were impossible to achieve in European earthenware and stoneware In response European ceramic factories set out to discover the process of producing porcelain in the Chinese manner with significant artistic technical and commercial ramifications for Britain and the Continent Indeed not only artisans but kings noble patrons and entrepreneurs all joined in the quest hoping to gain both prestige and profit from the enterprises they established This beautifully illustrated volume showcases ninety works that span the late sixteenth to the mid nineteenth century and reflect the major currents of European porcelain production Each work is illustrated with glorious new photography accompanied by analysis and interpretation by one of the leading experts in European decorative arts Among the wide range of porcelains selected are rare blue and white wares and figures from Italy superb examples from the Meissen factory in Germany and the Sèvres

factory in France and ceramics produced by leading British eighteenth century artisans Taken together they reveal why the Metropolitan Museum s holdings in this field are among the finest in the world p p1 margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana

Picturing Marie Leszczinska (1703-1768) JenniferG Germann,2017-07-05

Portraits of Queen Marie Leszczinska 1703 1768 were highly visible in eighteenth century France Appearing in royal ch aux and after 1737 in the Parisian Salons the queen s image was central to the visual construction of the monarchy Her earliest portraits negotiated aspects of her ethnic difference French gender norms and royal rank to craft an image of an appropriate consort to the king Later portraits by Maurice Quentin de La Tour Carle Van Loo and Jean Marc Nattier contributed to changing notions of queenship over the course of her 43 year tenure Whether as royal wife devout consort or devoted mother Marie Leszczinska s image mattered While she has often been seen as a weak consort this study argues that queenly images were powerful and even necessary for Louis XV s projection of authority This is the first study dedicated to analyzing the queen s portraits It engages feminist theory while setting the queen s image in the context of portraiture in France courtly factional conflict and the history of the French monarchy While this investigation is historically specific it raises the larger problem of the power of women s images versus the empowerment of women a challenge that continues to plague the representation of political women today

Antiquarianism and the Visual Histories of Louis XIV Robert Wellington,2017-07-05

Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past provides a new interpretation of objects and images commissioned by Louis XIV 1638 1715 to document his reign for posterity The Sun King s image makers based their prediction of how future historians would interpret the material remains of their culture on contemporary antiquarian methods creating new works of art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient r me France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV s history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand si e
