Art As A Social System Meridian Stanford Calif Paperback:

Art as a Social System Niklas Luhmann, 2000 This is the definitive analysis of art as a social and perceptual system by Germany's leading social theorist of the late 20th century. It combines three decades of research in the social sciences: phenomenology, evolutionary biology, cybernetics, and information theory, with an intimate knowledge of art history, literature, aesthetics, and contemporary literary theory.

Orchestra Management in Practice Salvino A. Salvaggio, 2023-12-15 Introducing the business models, organisational structures, and fundamentals of orchestras, this book takes readers on a journey through the evolution of orchestra management. The author explores the dynamics between artistic excellence and financial sustainability. Key aspects of orchestra management are examined in detail, including artistic programming, strategic planning, financial and compliance, legal matters, audience development, resilience, and adaptability, governance, and board relations, diversity, and inclusion, partnerships, and the role of technology and innovation. With actionable resources such as checklists, templates, and frameworks for current and future orchestra leaders and managers, this comprehensive guide empowers readers in education and practice to navigate the complexities of orchestra management confidently and effectively.

Digital Transformation of Performing Arts Salvino A. Salvaggio, 2025-02-27 In the wake of the COVID-19 pandemic, a combination of hybrid working and cultural consumption alongside shifting audience tastes, performing arts organisations are dealing with significant challenges around digital transformation (DT). This book explores the DT of performing arts, taking readers on a journey through classical orchestras as illustrative examples. From reimagining audience engagement to revolutionising operations, the book examines how emerging technologies like AI, VR, and blockchain are reshaping the cultural landscape. Through case studies of successful digital initiatives and analysis of critical success factors, readers will gain practical strategies for navigating this complex transition. The author emphasises that successful DT hinges on a clear, comprehensive strategy and a sharp implementation roadmap. Key challenges addressed include balancing tradition with innovation, ethical considerations, and financial sustainability. Notably, the book features numerous summary tables that serve as actionable templates, providing readers with ready-to-use tools to support their own DT efforts. With a forward-looking perspective, the book also explores future trends and research directions. This concise book synthesises fragmented research and practical insights to provide a readable overview for scholars, students, and reflective practitioners. It will also be of value for arts administrators, performers, and cultural policymakers across various disciplines.
