Campo Weyerman and his Collection of Artists' Biographies Lyckle de Vries,2020-02-25 Weyerman s collection of artists biographies 1729 is exceptional for three reasons Firstly he includes a great number of painters not mentioned elsewhere Secondly he does not limit his selection to good artists only he also discusses failed painters and their abortive careers Thirdly he writes as an art critic who does not hesitate to pass judgments sometimes severe on his chosen subjects In the process Weyerman provides much information on the social and economic circumstances of art production He found that a bohemian lifestyle was pernicious to a painter s career and argued that artists should live and think as merchants In addition to analyzing Weyerman s art critical terminology and his ideas on art theory De Vries includes translations of two full chapters along with the original Dutch Encyclopaedia Perthensis; Or Universal Dictionary of the Arts, Sciences, Literature, &c.
