Heidegger's Polemos Gregory Fried, 2008-10-01 Gregory Fried offers in this book a careful investigation of Martin Heidegger's understanding of politics. Disturbing issues surround Heidegger's commitment to National Socialism, his disdain for liberal democracy and his rejection of the Enlightenment. Fried confronts these issues focusing not on the historical debate over Heidegger's personal involvement with Nazism but on whether and how the formulation of Heidegger's ontology relates to his political thinking as expressed in his philosophical works. The inquiry begins with Heidegger's interpretation of Heraclitus, particularly the term *polemos* (war) or in Heidegger's usage, confrontation. Fried contends that Heidegger invests *polemos* with broad ontological significance and that his appropriation of the word provides important insights into major strands of his thinking: his conception of the human being, understanding of truth and interpretation of history as well as the meaning of the so-called turn in his thought. Although Fried finds that Heidegger's politics are continuous with his thought, he also argues that Heidegger's work raises important questions about contemporary identity politics. Fried also shows that many postmodernists, despite attempts to distance themselves from Heidegger, fail to avoid some of the same political pitfalls his thinking entailed.

Re-imagining Academic Staff Development Lynn

Quinn, 2012-11-01 *Re-imagining Academic Staff Development: Spaces for Disruption* is a book with a strong commitment to social transformation. It is a welcome addition to the field of academic development studies. South Africa may have unique social challenges, but in highlighting higher education's central role in responding to them, this book reminds academic developers everywhere of the intrinsic politicalness of our work. In a series of theoretically diverse chapters, all written by members of the Centre for Higher Education Research, Teaching and Learning at Rhodes University, we are provoked to reconsider the meaning of our practice and why we do it. An enlivening read.

Signature Derrida Jacques Derrida, 2024-05-31 Throughout his long career, Jacques Derrida had a close collaborative relationship with *Critical Inquiry* and its editors. He saved some of his most important essays for the journal, and he relished the ensuing arguments and polemics that stemmed from the responses to his writing. That *Critical Inquiry* encouraged collecting the best of Derrida's work that was published in the journal between 1980 and 2002, *Signature Derrida* provides a remarkable introduction to the philosopher and the evolution of his thought. These essays define three significant periods in Derrida's writing: his early, seemingly revolutionary phase; a middle stage, often autobiographical, that included spirited defense of his work; and his late period, when his persona as a public intellectual was prominent and he wrote on topics such as animals and religion. The first period is represented by essays like *The Law of Genre*, in which Derrida produces a kind of phenomenological narratology. Another essay, *The Linguistic Circle of Geneva*, embodies the second, presenting deconstructionism at its best. Derrida shows that what was imagined to be an epistemological break in the study of linguistics was actually a repetition of earlier concepts. The final period of Derrida's writing includes the essays *Of Spirit* and *The Animal*.

That Therefore I Am More to Follow and three eulogies to the intellectual legacies of Michel Foucault Louis Marin and Emmanuel Levinas in which Derrida uses the ideas of each thinker to push forward the implications of their theories With an introduction by Francoise Meltzer that provides an overview of the oeuvre of this singular philosopher Signature Derrida is the most wide ranging and thus most representative anthology of Derrida's work to date **Animals and the Limits of Postmodernism** Gary Steiner, 2013-04-16 In *Animals and the Limits of Postmodernism* Gary Steiner illuminates postmodernism's inability to produce viable ethical and political principles Ethics requires notions of self agency and value that are not available to postmodernists Thus much of what is published under the rubric of postmodernist theory lacks a proper basis for a systematic engagement with ethics Steiner demonstrates this through a provocative critique of postmodernist approaches to the moral status of animals set against the background of a broader indictment of postmodernism's failure to establish clear principles for action He revisits the ideas of Derrida Foucault Nietzsche and Heidegger together with recent work by their American interpreters and shows that the basic terms of postmodern thought are incompatible with definitive claims about the moral status of animals as well as humans Steiner also identifies the failures of liberal humanist thought in regards to this same moral dilemma and he encourages a rethinking of humanist ideas in a way that avoids the anthropocentric limitations of traditional humanist thought Drawing on the achievements of the Stoics and Kant he builds on his earlier ideas of cosmic holism and non anthropocentric cosmopolitanism to arrive at a more concrete foundation for animal rights **Mintirho ya Vulavula** Jabulisile Mhlambi, Sandile Ngidi, 2021-04-19 *Mintirho ya Vulavula* Arts National Identities and Democracy examines the role of arts and culture in development and specifically its value in consolidating our nascent democracy and in facilitating the transformation of South African society Contributors to this edited volume interrogate the role of arts culture and heritage from a transdisciplinary perspective enriched by the cross generational perspectives offered by young and older artists cultural practitioners activists and scholars Authors also offer some policy recommendations on how the contribution of arts and culture to social cohesion and nation building can be enhanced Finitude's Score Avital Ronell, 1994-01-01 *Suspending the distinction between headline news and high theory* Avital Ronell examines the diverse figures of finitude in our modernity war guerrilla video trauma TV AIDS music divorce sadism electronic tagging rumor Her essays address such questions as How do rumors kill How has video become the conscience of TV How have the police come to be everywhere even where they are not Is peace possible Writing to the community of those who have no community to those who have known the infiniteness of abandonment her work explores the possibility one possibility among many that this time we have gone too far One last word It is possible that we have gone too far This possibility has to be considered if we as a species as a history are going to get anywhere at all Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work It attempts to be comprehensive rather

than selective listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991 and is extensively annotated. It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction. The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy.
