of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose *Book of Tea* is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko Seo Eric C Shiner Lawrence Smith Shuji Tanaka Reiko Tomii Mayu Tsuruya Toshio Watanabe Gennifer Weisenfeld Bert Winther Tamaki Emiko Yamanashi

A History of Disability and Art Education Claire Penketh, 2023-08-16 Drawing on recent theoretical frameworks from critical disability studies and art education including normalcy ableism disability and Crip theory this book offers an analysis of the conceptualisation of ability in art education and its relationship with disability Drawing on the work of Cizek and Lowenfeld in Austria Ruskin and Richardson in England and Dewey and Eisner in the United States it critically examines the influence of ideas such as the dominance of vision and visuality the emergence of psychological perspectives the Child Art Movement the implications of assessment regimes and the relevance of art education as a critical social practice on the production of disability Offering a sustained inquiry into the differential values attributed to learners and their work and the implications of this for framing our understanding of disability in art education this book shows that although art educators have frequently advocated for the universal appeal and importance of art education they have done so within historical contexts that have

produced and determined problematic ideas regarding disability It will be of interest to all scholars and students of disability studies art in education art history and education studies
