Collecting and Provenance Andrea M. Gálady,Ronit Sorek,Netta Assaf,Gal Ventura,2021-06-21 This collection of essays highlights the enduring significance of provenance and its implications for historians and art historians as well as students and researchers engaged in museum studies It also offers an opportunity to demonstrate its relevance to other fields of expertise such as conservation visual culture studies aesthetics authentication and connoisseurship versus technology as a means of establishing attributions and detecting forgeries Provenance is still of vital importance to jurisdiction whether it concerns property law or ownership It also remains topical because of the ongoing debates over looted art in the 1930s and 1940s and the illicit trade in antiquities conducted from Iraq and Syria by terrorist groups

Dada and Its Later Manifestations in the Geographic Margins Ronit Milano,Raya Zommer-Tal,Noam Gonen,2024-06-14 This volume focuses on the unstudied geographic margins of Dada delving into the roots of Dada in Israel Romania Poland and North America Contributors consider some of the practices and experiments that were conceived a century ago surfaced in art throughout the twentieth century and are still relevant today Unearthing its Israeli origins examining Dadaist expressions in Poland and shedding light on overlooked facets of Dadaist art in Romania and North America the authors cast a spotlight on the less explored geographical peripheries of Dada The book is organized around four thematic trajectories space language materiality and reception which are dissected through the lens of micro histories Recognizing the continuing validity of questions raised by Dadaist artists this volume argues that Dada persists as an ongoing endeavor a continual reexamination of the fundamental tenets of art and its ever evolving potential manifestations The book will be of interest to scholars working in art history modernism and history of the twentieth and twenty first centuries
