This is Not a Pipe Michel Foucault,1983 What does it mean to write This is not a pipe across a bluntly literal painting of a pipe Ren Magritte s famous canvas provides the starting point for a delightful homage by the French philosopher historian Michel Foucault Much better known for his incisive and mordant explorations of power and social exclusion Foucault here assumes a more playful stance By exploring the nuances and ambiguities of Magritte s visual critique of language he finds the painter less removed than previously thought from the pioneers of modern abstraction confronting them and within a common system a figure at once opposed and complementary Foucault s brief but extraordinarily rich essay offers a startling highly provocative view of a painter whose influence and popularity continue to grow unchecked This is Not a Pipe also throws a new piquantly dancing light on Foucault himself

Antoine Watteau Mary D. Sheriff,2006 The essays in Antoine Watteau Perspectives on the Artist and the Culture of His Time offer a richly textured portrait of the artist s life work and reputation for students specialists and the general public The volume brings together art historians whose research is currently defining the field of Watteau studies with scholars from history and literature who have published widely on the political and cultural trends of Watteau s era Essays include studies of the artist s drawing practice his relation to the emerging public sphere and the changing fortunes of his reputation as well as considerations of art dealing and fashion in Watteau s time Other essays take up conversation dance seduction and theatricality as essential themes of Watteau s art This volume will be an indispensable resource for all those interested in the visual culture of Regency France

Fashioning Masculinity Dr Michele Cohen, Michele Cohen, 2002-01-08 The fashioning of English gentlemen in the eighteenth century was modelled on French practices of sociability and conversation Michele Cohen shows how at the same time the English constructed their cultural relations with the French as relations of seduction and desire She argues that this produced anxiety on the part of the English over the effect of French practices on English masculinity and the virtue of English women By the end of the century representing the

French as an effeminate other was integral to the forging of English masculine national identity Michele Cohen examines the derogation of women and the French which accompanied the emergent masculine English identity While taciturnity became emblematic of the English gentleman s depth of mind and masculinity sprightly conversation was seen as representing the shallow and inferior intellect of English women and the French of both sexes Michele Cohen also demonstrates how visible evidence of girls verbal and language learning skills served only to construe the female mind as inferior She argues that this perception still has currency today Introduction to the Teaching of Living Languages Without Grammar Or Dictionary Lambert Sauveur,1874 *A Catalogue of Books, for the Year 1803* Lackington, firm, booksellers, London,1803
