Ogren, Marc A. VanOverbeke, 2018-07-19 This edited volume explores the history of student life throughout the nineteenth and twentieth centuries Chapter authors examine the expanding reach of scholarship on the history of college students the history of underrepresented students including black Latino and LGBTQ students and student life at state normal schools and their successors regional colleges and universities and at community colleges and evangelical institutions The book also includes research on drag and gender and on student labor activism and offers new interpretations of fraternity and sorority life Collectively these chapters deepen scholarly understanding of students the diversity of their experiences at an array of institutions and the campus lives they built **Schoolhouses, Courthouses, and Statehouses** Eric A. Hanushek, Alfred A. Lindseth, 2020-10-06 Improving public schools through performance based funding Spurred by court rulings requiring states to increase public school funding the United States now spends more per student on K 12 education than almost any other country Yet American students still achieve less than their foreign counterparts their performance has been flat for decades millions of them are failing and poor and minority students remain far behind their more advantaged peers In this book Eric Hanushek and Alfred Lindseth trace the history of reform efforts and conclude that the principal focus of both courts and

legislatures on ever increasing funding has done little to improve student achievement Instead Hanushek and Lindseth propose a new approach a performance based system that directly links funding to success in raising student achievement This system would empower and motivate educators to make better more cost effective decisions about how to run their schools ultimately leading to improved student performance Hanushek and Lindseth have been important participants in the school funding debate for three decades Here they draw on their experience as well as the best available research and data to show why improving schools will require overhauling the way financing incentives and accountability work in public education
