## **Armed Force As Power:**

*Armed Force as Power* Wendell J. Coats, 1967      *International Law and the Use of Armed Force* Joel Westra, 2007-04-11

Since the UN Charter came into effect in 1945 there have been numerous incidents in which one or more of the five major powers at least arguably violated the Charter's Article 2 4 prohibition of force. Such incidents notwithstanding this book demonstrates how the Charter restrains the major powers' military actions. As an instrument of international order the Charter provides a framework of legal rules restricting the use of armed force. Although these rules are subject to auto interpretation by the major powers as a consequence of their veto they create an expectation of compliance that subjects the major powers' military actions to international scrutiny. To reduce the likelihood of resistance from states threatened by such actions major powers exercise prudential restraint altering the manner and timing of their military actions in accordance with the legal arguments offered to justify those actions as consistent with the Charter and therefore not threatening to the existing international order. The book evaluates the efficacy of the Charter using large N methods and five case studies: US intervention in the Caribbean 1953-61, Anglo-French intervention in Egypt 1956, Soviet intervention in Hungary 1956, US British intervention in Iraq 1990-98 and US British intervention in Iraq 1999-2003. The book's extensive focus on the two Iraq cases provides a basis for timely evaluation of the continuing salience and possible reforms of the UN Charter system. This book will be of much interest to students of security studies, the UN, international law and international relations.

**Armed Forces Special Power Act** Dr. U C Jha, 2015-03-01. The Armed Forces Special Powers Act (AFSPA) has become one of the most controversial laws both in India and the world. A few NGOs and human rights activists have described it as draconian, alleging that it gives the armed forces unrestricted power to arrest without warrant, destroy property and shoot to kill, besides providing them with complete immunity. The loud and continuous clamour against the Act has drawn the attention of various international organizations. The UN Special Rapporteur on Extrajudicial Summary or Arbitrary Executions, Christof Heyns, has recently called for the repeal of the law, stating AFSPA allows the state to override rights. Such a law has no role in a democracy and should be scrapped. On the other hand, the armed forces hold that the AFSPA is necessary for tackling the growing menace of militancy and protecting their men from the unnecessary harassment caused by litigation. General V K Singh, the former chief of army staff and now a cabinet minister, has emphasized that the AFSPA is a functional requirement of the armed forces. This is the first book in India not only to attempt a complete analysis of the various provisions of the AFSPA but also to provide an insight into the legislative efforts of other democracies to meet the challenges of growing terrorism. It delves into cases of human rights violations in which members of the armed forces have been implicated and at the same time argues that it is equally important to safeguard the human rights of the members of the armed forces. In order to help find an amicable solution, the author makes a few recommendations for the consideration of the government and armed forces.

**The Russian Armed Forces at the Dawn of the Millennium**, 2000 This anthology is an outgrowth of a conference titled The Russian Armed Forces at the Dawn of the Millennium held at the Collins Center of the Army War College s Center for Strategic Leadership from 7 through 9 February 2000 The genesis for the conference was the realization by several members of the staff of the Collins Center and Army War College faculty that

the U S led NATO operation in Kosovo resulted in a significant shift of Russian views on the United States and NATO The conference also complemented our general objective of examining the changing environment in which the United States including its armed forces finds itself The conference brought together over 50 individuals from academia and the policy and intelligence communities to examine the current state of the Russian military Focusing primarily on the socio political dimension of the military but not ignoring the military technical dimension the presentations delivered during the conference looked at Russia s domestic environment the state of the military perceived threats and Russia s capacity to generate responses to those threats DTIC web site

*The Handbook of African Defence and Armed Forces* Evert Kleynhans,Marco Wyss,2025-03-01 The Handbook of African Defence and Armed Forces provides the first in depth and multifaceted analysis of the evolution and current state of national defence policies strategies doctrines capabilities security challenges and strategic responses of African states and their armed forces Geographically these aspects are investigated at the national sub regional and regional levels Chronologically they are analysed against the backdrop of the superpower withdrawal from the continent in the 1990s and the so called New Scramble for Africa which has seen a crescendo of renewed great power interest in the continent s resources as well as its strategic role location and relevance since the 2000s The book takes a bottom up and African centric approach and is organized around five key themes i the differing security outlooks and defence policies of African powers within the region and the different sub regions ii the strategies doctrines transformation and employment of African armed forces iii the relationship between African armed forces with sub regional regional and international organizations iv the challenges that African states and their armed forces have been facing and their strategic responses and v the position of African perspectives and agency in the context of continental and international security and defence Understanding African security and defence especially in terms of each individual nation s ability to contribute to peacekeeping operations counterterrorism border security and internal security requires a focus on the national level of armed forces and defence policies this in turns sheds light on sub regional and regional divergences challenges and cooperation Based on this framework the chapters in this volume offer comprehensive African perspectives on African and international security and defence and in doing so show the agency of the continent s countries and armed forces in International Security and Relations

Evolution of the Armed Forces of the United Arab Emirates Athol Yates,2020-12-10 While today the military of the United Arab Emirates is described admiringly as a little Sparta just 60 years ago the only security forces in the Emirates were the armed retainers of the Ruling Sheikhs and a small British led locally raised Arab force Through a combination of direct oversight by rulers investment in its nationals engagement of expatriates and the purchase of cutting edge military hardware the UAE Armed Forces has become arguably the most capable Arab military In the last decade it has also gained considerable experience through its military operations in Afghanistan Libya Iraq Syria and Yemen This book traces the little known history of the country s military from 1951 to 2020 It provides unparalleled detail on

the constituent forces that evolved into the UAE Armed Forces in 1976 and how that unified force has evolved to the present. It provides essential background information on how the country's geography, demographics and political system have shaped its military, the enduring roles of the military and the history of each military service. It also details the political and command structure governing the military and its manpower and materiel characteristics. The book concludes with an explanation of how the UAE has been able to develop such a highly capable military for its size in a relatively short period of time.

**Military Power, Conflict and Trade** Michael P. Gerace, 2004-06-01. Wherever international commerce flows in world politics, military power often flows with it, sometimes as a protector of commerce, sometimes as its promoters and sometimes as a tool of aggression against it. How are military power and international trade related? Do military power and commerce expand together or does military power decline as commerce and perhaps interdependence increases? Does this relationship vary across countries and if so how? *Power, Conflict and Trade* is a study of the relationship between military power and international commerce among the Great Powers prior to World War I. After building an argument for a direct relationship between military power and commerce, one grounded in a mercantilist view of state power and exploring their numerous connections, the book estimates models of the relationship among the Great Powers and explores a great deal of their commercial and military data, all of which is situated in the context of their mutual rivalries. Another question investigated is whether the peacetime conflicts and rivalries of the Great Powers affected their trade relations adversely. There is strong support for the argument that military power and commerce move together in world politics, though there is evidence for an inverse relationship as well.

*American Defense Policy* Peter L. Hays, Brenda J. Vallance, Alan R. Van Tassell, 1997. Defense policies: reviewing excerpts from key defense policy statements and assessing the likely challenges for future policy makers. Brent Scowcroft, International Affairs. *Defence Transformation in Europe* Timothy Edmunds, Marjan Malešič, 2005. Consisting of eight parts, this book includes the changing nature of the defence of national territory, role expeditionary warfare, peacekeeping and humanitarian intervention, defence diplomacy, domestic military assistance and internal security. The authors come from a range of different groups involved in defence transformation processes. **Air University Library Index to Military Periodicals**, 1995. *Professional Journal of the United States Army*, 1990. *The European Union and Military Force* Per M.
