Armed Forces Of The Usa In The Asiapacific Region:

The Armed Forces of the USA in the Asia-Pacific Region Stanley B. Weeks, Charles A. Meconis, 2004-11-13 For over half a century since Pearl Harbor brought the US into the Pacific War America has been a dominant military power in Asia challenged only by the then Soviet Union and China This is the first unclassified account of America s military stake and current defensive and offensive capacity in Asia It analyzes the role of US armed forces in Asia including deterrent nuclear forces in the context of defense policy and strategy The possible future of US forces in the region is considered and the book also considers the views of Asian nations on America s continuing presence **Air University Library Index to Military**

The Forgotten Service: Determining the U.S. Army's Role in Shaping American Strategy in the Asia-Pacific Region - Threats from China, North K U. S. Military, Department Of Defense (Dod), Christopher Cline, 2019-03 The Asia Pacific region is rapidly emerging as a major focus of American interest Since America's acknowledgement of Asia's importance in the 2010 National Security Strategy the United States has sought means and developed methods with which to enhance engagement in the region Regional organizations dialogues and diplomacy are among the methods the U S employs The role of American armed forces in the region is to support these important activities As the United States rebalances to the Asia Pacific region current strategies focus on the contributions of air and sea based capabilities articulated in the Air Sea Battle concept But while America looks toward the Pacific and sees a vast area of ocean and air Asian nations view themselves regionally and primarily as land based powers This is particularly important because over half the world's population lives on the Asian continent Given the cultures of Asian nations and America's military history in the Asia Pacific region we should not neglect the potential contributions of the U S Army to Asian Pacific strategy It is also important for the Army to think seriously and critically about how it can best contribute to furthering America's strategic interests in the region This study comprises an analysis of the U S Army's history in Asia and the Pacific along with current American and Asian actors contemporary security interests in effort to determine what role the U S Army should play in shaping American strategy in the Asia Pacific region Taking into account threats to regional stability in the region the 21st century requirements for America's army in the region should include four primary and four auxiliary missions The four primary missions are deterring war and enhancing regional stability preparing for war foreign military assistance and counterterrorism The four auxiliary missions are helping inculcate American values responding to humanitarian and natural crises securing and eliminating WMD and establishing military governance The study then concludes by recommending specific steps the Army must take to enhance its capabilities in areas where those capabilities do not fully meet these above requirements This compilation includes a reproduction of the 2019 Worldwide Threat Assessment of the U S Intelligence Community

US-China Strategic Competition Muhammad Ali Baig, 2025-02-18 The book maps the strategic competition between the U S and China its history and the contemporary outlook of their armed forces It analyses the wars fought by each of these forces their military operations operations other than war and draws up a comparative analysis between the military doctrines of both nations The author examines the implications of American and Chinese military doctrine and the varying degrees of cooperation competition and potential conflict in the Western Pacific Finally the book argues for possibilities of cooperation between the two superpowers and suggests ways of minimising potential future conflict The volume will be of great interest to scholars and researchers of international relations military and strategic studies and Asian studies

Department of Defense Authorization for Appropriations for Fiscal Year 2002 United States. Congress. Senate. Committee on Armed Services, 2002

China's Power and Asian Security Mingjiang Li, Kalyan M. Kemburi, 2014-11-27 One of the most significant factors for

contemporary international relations is the growth of China's economic, military, and political power. Indeed, few analysts would dispute the observation that China's power has strongly influenced the structure of the international system, major power strategic relations, international security, the patterns of trans-border economic activities, and most importantly, the political and security dynamics in Asia in the twenty-first century. This book maps the growth of China's political, economic, and military capabilities and its impact on the security order in Asia over the coming decades. While updating the emerging power dimensions and prevailing discourse, it provides a nuanced analysis of whether the growth of Chinese power is resulting in Beijing becoming more assertive or even aggressive in its behavior and pursuit of national interests. It also examines how the key Asian countries perceive and react to the growth of China's power and how US rebalancing would play out in the context of Beijing's political, economic, and military power. China's Power and Asian Security will be of huge interest to students and scholars of Asian politics, Chinese politics, security studies, and international security and international relations more generally.
