The Chinese Armed Forces in the 21st Century, 1999 The debate about China and Taiwan is re emerging in the United States The accidental bombing of the Chinese Embassy in Belgrade of course put on the front burner the way that nationalistic fervor has grown in China at least some of it as a result of manipulation by the Communist Party President Lee Teng hui s comments about state to state relations between Taiwan and the mainland raised the temperature of relations across the strait and among the three concerned parties China the United States and Taiwan China threatened China postured and China ran political campaigns against the United States and Lee But the questions of military capability security policy and intent are rarely treated seriously This book is a serious look at the armed forces of China and how they will evolve China's Incomplete Military Transformation Michael S. Chase, Jeffrey Engstrom, Tai Ming Cheung, Kristen A. Gunness, Scott Warren Harold, Susan Puska, Samuel K. Berkowitz, 2015-02-13 Through extensive primary source analysis and independent analysis this report seeks to answer a number of important questions regarding the state of China s armed forces The authors found that the PLA is keenly aware of its many weaknesses and is vigorously striving to correct them Although it is only natural to focus on the PLA s growing capabilities understanding the PLA s weaknesses and its self assessments is no less important **The Chinese Armed Forces in the 21st Century** Larry M. Wortzel, 1999 Examines the armed forces of the People s Republic of China and how they will evolve Includes papers prepared for the 8th in a series of conferences on the People s Liberation Army PLA Papers include geographic ruminations the Chinese military and the peripheral states in the 21st cent PLA capabilities in the 21st cent how does China assess its future security needs advanced military technology and the PLA priorities and capabilities for the 21st cent U S Chinese military relations in the 21st cent Taiwan s military in the 21st cent redefinition and reorganization Taiwan s military a view from afar and the political angle new phenomena in Party Army relations **The Chinese People's Liberation Army in 2025** Roy Kamphausen, David Lai, Army War College (U.S.). Strategic Studies Institute, 2015 This updated volume is of special relevance in light of the profound changes occurring within the Chinese People s Liberation Army PLA China s desire to develop a military commensurate with its diverse interests is both legitimate and understandable The challenge for U S Pacific Command USPACOM is to understand how China will employ this growing military capability in support of its interests The book addresses the uncertainty surrounding the potential direction of the PLA by examining three distinct focus areas domestic external and technological drivers of PLA modernization alternative futures for the PLA and Implications for the region world and U S China relations The analysis provides an insightful perspective into the factors shaping and propelling the PLA s modernization its potential future orientation ranging from internally focused to globally focused and how the PLA s choices may impact China s relations with its neighbors and the world Audience Military personnel policy analysts lawmakers and foreign officers in the Asia Pacific region may find many insights in this book pertaining to the development of the Chinese

Chinese Army Building in the Era of Jiang Zemin Andrew Scobell, 2000 To many in the United States China looms large and threatening This monograph attempts to answer through an analysis of China's defense establishment under the leadership of Jiang Zemin questions such as What are the national security and national military goals of China's leaders What strategies are Chinese leaders considering in pursuit of these goals What is the likelihood that these goals will be attained It assesses the political and economic determinants of China's effort to modernize its armed forces Four possible strategies are outlined 1 playing the superpower game 2 playing to its strengths 3 changing the rules of the game or 4 don't play that game The factors that will determine the selection of a strategy are examined The most likely strategy is identified and its outcome evaluated Lastly the implications of the study for the U.S. defense community are addressed

Shaping China's Security Environment Andrew Scobell, Larry M. Wortzel, 2006 The contributions contained herein address the role of the Chinese military in shaping its country's security environment Of course the PLA itself is shaped and molded by both domestic and foreign influences In the first decade of the 21st century the PLA is not a central actor in China's foreign policy the way it was just a few decades ago Nevertheless the significance of the PLA must be understood The military remains a player that seeks to play a role and influence China's policy towards such countries and regions as the United States Japan the Koreas Southeast Asia South Asia and of course Taiwan It is important not to overlook that in times of crisis or conflict the role and influence of the PLA rise significantly

History of China's Military Dr. R K Sahay, 2016-09-01 The recorded military history of China extends from about 2200 BC to the present day This history can be divided into the military history of China before 1911 when a revolution overthrew the imperial state and the period of the Republic of China Army and the People's Liberation Army Although traditional Chinese Confucian philosophy favored peaceful political solutions and showed contempt for brute military force the military was influential in most Chinese states Chinese pioneered the use of crossbows advanced metallurgical standardization for arms and armor early gunpowder weapons and other advanced weapons but also adopted nomadic cavalry and Western military technology The book deeply highlights the Military History of China and its strategies

The Armed Forces of China You Ji, 1999-12-03 At present perceptions of China's military power owe as much to the Korean war as they do to cool analysis of force structure and offensive capacity Yet as the emerging economic superpower in Asia China must play an ever growing part in the future of that region and the world The Armed Forces of China presents a straightforward description of China's

military resources and the impact of new programs of investment in technology and manpower management *The Chinese Armed Forces in the 21st Century* Larry M Wortzel, 2019-07-09 *The Chinese Armed Forces in the 21st Century* *Chinese Civil-Military Relations* Nan Li, 2010-04-05 This new book addresses three key issues What has changed in Chinese civil military relations What can account for changes And what are the implications for Chinese security policy and strategic behaviour It tackles these questions by sharply assessing civil military dynamics in elite politics such dynamics in national security and arms control policy relations between commanders and political commissars relations between the PLA and society civil military dynamics regarding defence economics and logistics and such dynamics regarding dual use technologies and defence industry These analyses build into the central theme that the emphasis of Chinese civil military relations is shifting from politics to military tasks This is an extremely important new development by a nation many predict to become a super power in the twenty first century This is therefore essential reading for all students and scholars of strategic and security studies Chinese studies and international relations *The Chinese Military System* Harvey W Nelsen, 1981-05-05 *Handbook on the Chinese Armed Forces* United States. Defense Intelligence Agency, 1976 *The People's Liberation Army and Contingency Planning in China* Andrew Scobell, Arthur S. Ding, Phillip Charles Saunders, Scott Harold, 2015 How will China use its increasing military capabilities in the future China faces a complicated security environment with a wide range of internal and external threats Rapidly expanding international interests are creating demands for the People's Liberation Army PLA to conduct new missions ranging from protecting Chinese shipping from Somali pirates to evacuating citizens from Libya The most recent Chinese defense white paper states that the armed forces must make serious preparations to cope with the most complex and difficult scenarios so as to ensure proper responses at any time and under any circumstances Based on a conference co sponsored by Taiwan's Council of Advanced Policy Studies RAND Carnegie Endowment for International Peace and National Defense University this book brings together leading experts from the United States and Taiwan to examine how the PLA prepares for a range of domestic border and maritime contingencies The book includes chapters on how the PLA domestic security forces and the civilian government conduct contingency planning and how military commanders can draw upon national level military assets and mobilize civilian resources to execute their plans Substantive chapters assess PLA planning for potential domestic contingencies such as suppressing internal unrest border contingencies involving India Myanmar North Korea Afghanistan and Central Asia and maritime contingencies in both the near and the far seas Authors also examine PLA preparations and performance in disaster relief counterpiracy and noncombatant evacuation operations Improving PLA capabilities are giving Chinese leaders new options to respond to domestic and international crises but the PLA still has significant limitations in projecting and sustaining power especially in contested environments Back cover *Chinese Military Modernization and Force Development* Anthony H. Cordesman, Ashley Hess, Nicholas S. Yarosh, 2013-10-22 China's military development has become a key focus of US security

policy as well as that of virtually all Asia Pacific states This report from the CSIS Burke Chair in Strategy examines trends in Chinese strategy military spending and military forces based on Chinese defense white papers and other official Chinese sources US reporting by the Department of Defense and other defense agencies and other government sources including Japanese and Korean defense white papers and the International Monetary Fund The analysis also draws on the work of experts outside of government various research centers and nongovernmental organizations

Shaping China's Security Environment Andrew Scobell, Larry M. Wortzel, 2006 The contributions contained herein address the role of the Chinese military in shaping its country's security environment Of course the PLA itself is shaped and molded by both domestic and foreign influences In the first decade of the 21st century the PLA is not a central actor in China's foreign policy the way it was just a few decades ago Nevertheless the significance of the PLA must be understood The military remains a player that seeks to play a role and influence China's policy towards such countries and regions as the United States Japan the Koreans Southeast Asia South Asia and of course Taiwan It is important not to overlook that in times of crisis or conflict the role and influence of the PLA rise significantly

China's Use of Military Force Andrew Scobell, 2003-09-08 In this unique study of China's militarism Andrew Scobell examines the use of military force abroad as in Korea 1950 Vietnam 1979 and the Taiwan Strait 1995 1996 and domestically as during the Cultural Revolution of the late 1960s and in the 1989 military crackdown in Tiananmen Square Debunking the view that China has become increasingly belligerent in recent years because of the growing influence of soldiers Scobell concludes that China's strategic culture has remained unchanged for decades Nevertheless the author uncovers the existence of a Cult of Defense in Chinese strategic culture The author warns that this Cult of Defense disposes Chinese leaders to rationalize all military deployment as defensive while changes in the People's Liberation Army's doctrine and capabilities over the past two decades suggest that China's twenty first century leaders may use military force more readily than their predecessors

The "people" in the PLA, 2008 As part of its larger reform effort to modernize and transform its military into a technologically sophisticated force the PLA has implemented a number of measures aimed at training up a new type officer for its modernized forces one capable of operating effectively in a technologically advanced informationalized environment
