electoral systems and electoral behaviour The book is essential reading for anyone interested in Irish politics and is an important text for students of European Politics Parties and Elections Comparative Politics and Political Sociology

Constructing Post-Soviet Geopolitics in Estonia Pami Aalto, 2013-09-13 This work examines the construction of post Soviet political space geopolitical discourses and boundaries in Estonia Making use of innovative methodological solutions such as Q methodology its analysis includes in depth interviews that elucidate a variety of issues through human experience and subjective perception such as Estonian Russian border disputes of the 1990s inter ethnic issues and national integration and security As Estonia is one of the frontline EU accession countries and is queuing for membership of NATO the book raises broad questions of post Soviet geopolitics in the Baltic region and across Europe Indeed Pami Aalto argues that small states such as Estonia should be understood as active participants in post Soviet and European geopolitics and not simply pawns in a superpower environment *Medical Research in the U. Lifestyle in Siberia and the Russian North Joachim Otto Habeck , 2019-11-25 Lifestyle in Siberia and the Russian North breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective Showcasing the collective work of ten experienced scholars in the field the book goes beyond concepts of tradition that have often been the focus of previous research to explain how political economic and technological changes in Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life Each contribution is drawn from meticulous first hand field research and the authors engage with theoretical questions such as whether and how the concept of lifestyle can be extended beyond its conventionally urban Euro American context and employed in a markedly different setting Lifestyle in Siberia and the Russian North builds on the contributors clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region This book provides inspiring reading for students and teachers of Anthropology Sociology and Cultural Studies and for anyone interested in Russia and its regions By providing ethnographic case studies it is also a useful basis for teaching anthropological methods and concepts both at graduate and undergraduate level Rigorous and innovative it marks an important contribution to the study of Siberia and the Russian North *Medical Research in the U.S.S.R.* National Institutes of Health (U.S.).
