MacKay,2010-11-25 Beginning its life as the sensational entertainment of the eighteenth century the novel has become the major literary genre of modern times Drawing on hundreds of examples of famous novels from all over the world Marina MacKay explores the essential aspects of the novel and its history where novels came from and why we read them how we think about their styles and techniques their people plots places and politics Between the main chapters are longer readings of individual works from Don Quixote to Midnight's Children A glossary of key terms and a guide to further reading are included making this an ideal accompaniment to introductory courses on the novel **Thomas Pynchon and the Dark**

Passages of History David Cowart,2012-01-15 Thomas Pynchon helped pioneer the postmodern aesthetic His formidable body of work challenges readers to think and perceive in ways that anticipate with humor insight and cogency much that has emerged in the field of literary theory over the past few decades For David Cowart Pynchon's most profound teachings are about history history as myth as rhetorical construct as false consciousness as prologue as mirror and as seedbed of national and literary identities In one encyclopedic novel after another Pynchon has reconceptualized historical periods that he sees as culturally definitive Examining Pynchon's entire body of work Cowart offers an engaging metahistorical reading of V an exhaustive analysis of the influence of German culture in Pynchon's early work with particular emphasis on Gravity's Rainbow and a critical spectroscopy of those dark stars Mason Dixon and Against the Day He defends the California fictions The Crying of Lot 49 Vineland and Inherent Vice as roman fleuve chronicling the decade in which the American tapestry

began to unravel Cowart ends his study by considering Pynchon's place in literary history Cowart argues that Pynchon has always understood the facticity of historical narrative and the historicity of storytelling not to mention the relations of both story and history to myth Thomas Pynchon and the Dark Passages of History offers a deft analysis of the problems of history as engaged by our greatest living novelist and argues for the continuity of Pynchon's historical vision Theory of the Novel Michael McKeon, 2000-12 McKeon and others delve into the significance of the novel as a genre form issues in novel techniques such as displacement the grand theory narrative modes such as subjectivity character and development critical interpretation of the structure of the novel and the novel in historical context **History Meets Fiction** Beverley C. Southgate, 2014-09-11 Is history factual or just another form of fiction Are there distinct boundaries between the two or just extensive borderlands How do novelists represent historians and history The relationship between history and fiction has always been contentious and sometimes turbulent not least because the two have traditionally been seen as mutually exclusive opposites However new hybrid forms of writing from historical fiction to docudramas to fictionalised biographies have led to the blurring of boundaries and given rise to the claim that history itself is just another form of fiction In his thought provoking new book Beverley Southgate untangles this knotty relationship setting his discussion in a broad historical and philosophical context Throughout Southgate invokes a variety of writers to illuminate his arguments from Dickens and Proust through Virginia Woolf and Daphne du Maurier to such contemporary novelists as Tim O'Brien Penelope Lively and Graham Swift Anyone interested in the many meeting points between history and fiction will find this an engaging accessible and stimulating read **The Hippie Narrative** Scott MacFarlane, 2015-01-24 The Hippie movement of the 1960s helped change modern societal attitudes toward ethnic and cultural diversity environmental accountability spiritual expressiveness and the justification of war With roots in the Beat literary movement of the late 1950s the hippie perspective also advocated a bohemian lifestyle which expressed distaste for hypocrisy and materialism yet did so without the dark somewhat forced undertones of their predecessors This cultural revaluation which developed as a direct response to the dark days of World War II created a counterculture which came to be at the epicenter of an American societal debate and ultimately saw the beginnings of postmodernism Focusing on 1962 through 1976 this book takes a constructivist look at the hippie era's key works of prose which in turn may be viewed as the literary canon of the counterculture It examines the ways in which these works with their tendency toward whimsy and spontaneity are genuinely reflective of the period Arranged chronologically the discussed works function as a lens for viewing the period as a whole providing a more rounded sense of the hippie Zeitgeist that shaped and inspired the period Among the 15 works represented are One Flew Over the Cuckoo's Nest The Crying of Lot 49 Trout Fishing in America Siddhartha Stranger in a Strange Land Slaughterhouse Five and The Fan Man **The Politics of Voice** Malini Johar Schueller, 1992-01-01 This book is an analysis of the social criticism and the political implications of rhetorical strategies in personal political nonfictional narratives by liberal American writers from the 18th

century till the 1970s Using the theories of Mikhail Bakhtin Schueller examines works by Benjamin Franklin Henry David Thoreau Henry James Henry Adams Jane Addams James Agee Norman Mailer and Maxine Hong Kingston **Tropes for the Past** Kuisma Korhonen,2006 In the last decades there has been an intense debate on the relationship between literature and historiography often linked to the debate between empiricists and postmodernists The aim of this collective work is to address this debate and to search for new ways of thinking and encountering the past The key note for the book comes from Hayden White one of the leading academic figures whose role in launching the contemporary history literature debate has been crucial It is followed by three critical readings of his work all suggesting new ways to apply or challenge his views In other chapters of the book history literature question is then addressed from three points of view narrativity history as literature and literature as history Tropes for the Past is an ideal introduction to the literature historiography debate and Hayden White s role in it It will be of use for all students and scholars in the philosophy of history and in historically oriented literary cultural and social studies The Twentieth-Century American Fiction Handbook Christopher MacGowan,2010-12-21 THE TWENTIETH CENTURY AMERICAN FICTION Accessibly structured with entries on important historical contexts central issues key texts and the major writers this Handbook provides an engaging overview of twentieth century American fiction Featured writers range from Henry James and Theodore Dreiser to contemporary figures such as Joyce Carol Oates Thomas Pynchon and Sherman Alexie and analyses of key works include The Great Gatsby Lolita The Color Purple and The Joy Luck Club among others Relevant contexts for these works such as the impact of Hollywood the expatriate scene in the 1920s and the political unrest of the 1960s are also explored and their importance discussed This is a stimulating overview of twentieth century American fiction offering invaluable guidance and essential information for students and general readers *Sacrifice and Modern War Writing* Alex Houen,2024-09-05 Sacrifice and Modern War Writing presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war s reality exceeds any attempt to represent it Houen contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war s reality is shaped and experienced Those frames are inextricably tied to modes of representation which include symbolism and mimesis Sacrifice and Modern War Writing explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a

fresh approach by arguing that the figurative and imaginative aspects of literary writing ironically become its very means of engaging closely with the reality of war's sacrifices. That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war.

The companion is a work of permanent value. It is undoubtedly an indispensable and path-breaking handy reference guide for all those interested in literatures in English produced in the United Kingdom, the United States, Canada, Australia, Africa, the Caribbean, India, and other countries.
