AK646 - AMERICAN ARMOR IN VIETNAM , *Tanks in the Easter Offensive 1972* William E. Hiestand,2022-02-15 This study explains how the armies of North and South Vietnam newly equipped with the most modern Soviet and US tanks and weaponry fought the decisive armored battles of the Easter Offensive Wearing by years of fighting against Viet Cong guerillas and North Vietnamese regulars the United States had almost completely withdrawn its forces from Vietnam by early 1972 Determined to halt the expansion and improvement of South Vietnamese forces under the U S Vietnamization program North Vietnam launched a major fourteen division attack in March 1972 against the South that became known as the Easter Offensive Hanoi's assault was spearheaded by 1 200 tanks and was counteracted on the opposite side by Saigon's newly equipped armored force using U S medium tanks The result was ferocious fighting between major Cold War era U S and Soviet tanks and mechanized equipment pitting M 48 medium and M 41 light tanks against their T 54 and PT 76 rivals in a variety of combat environments ranging from dense jungle to urban terrain Both sides employed cutting edge weaponry for the first time including the U S TOW and Soviet 9M14 Malyutka wire guided anti tank missiles This volume examines the tanks armored forces and weapons that clashed in this little known campaign in detail using after action reports from the battlefield and other primary sources to analyze the technical and organizational factors that shaped the outcome Despite the ARVN's defensive success in October 1972 North Vietnam massively expanded its armor forces over the next two years while U S support waned This imbalance with key strategic misjudgments by the South Vietnamese President led to the stunning defeat of the South in 1975 when T54 tanks crashed through the fence surrounding the Presidential palace and took Saigon on April 30 1975 *Whitaker's Books in Print* ,1998 *The Greek Victories and the Persian Ebb 480-479 BC* Manousos E. Kambouris,2022-12-01 The dramatic conclusion to this trilogy explains the reversal of fortunes and final defeat of Xerxes Persian invasion of Greece not as unlikely as usually presupposed The focus is on the successful repulse of the Persian massive armada at Salamis a resounding naval victory with parallels to the English defeat of the Spanish Armada Along with the backstage policies and cloak and dagger events the analysis of hard data of naval and military realities and environment shows the reason for this outcome and more so of the closely fought double campaign of the following year that ended the Persian threat The massive land victory at Plataea that ousted the empire from mainland Greece and crippled its armies and the amphibious operation at Mycale that destroyed the remnants of the royal Grand Armada and shut the doors to further Persian incursions in Greece is examined in detail Manousos Kambouris examines in depth the plans potential assets and liabilities of the two protagonists to explain command decisions and developments in the field This is a fine finale to this fresh appraisal of these hugely significant events *The Cumulative Book Index* ,1986 A world list of books in the English language **The British National Bibliography** Arthur James Wells,1979 **M8 Greyhound Light Armored Car 1941-91** Steven J.
