Examining Identity in Sports Media Heather L. Hundley, Andrew C. Billings, 2010 Communication issues involving sports media permeate myriad levels of society. These issues are important sources for learning and reinforcing social beliefs; they are salient contexts for investigating issues of identity including ethnicity, gender, class, sexual orientation, ability, disability, and more. Consequently, sport and media inscribe numerous implicit and explicit ideologies that saturate our culture. Using a wide variety of theoretical and methodological constructs, for example, surveys, content analyses, ethnographic research, field work, rhetorical approaches, other appropriate quantitative or qualitative approaches, *Examining Identity in Mediated Sports* examines various media including television, film, advertising, print, Web sites, and nontraditional media to expose how the intersection of sport and media construct, reinforce, and/or perpetuate perceptions of human identities. This book investigates the numerous ways print, electronic, and digital media present issues of identity in sports coverage; each chapter addresses media portrayals and/or cultural representations of one or more form of identity, ethnicity, gender, class, sexual orientation, ability, disability, etc., as it relates to sport. Contributors, both seasoned and up-and-coming scholars of sport, represent a fine and diverse balance of intellectual ideologies.
