Military Men of Feeling Holly Furneaux, 2016-03-25 Military Men of Feeling considers the popularity of the figure of the gentle soldier in the Victorian period It traces a persistent narrative swerve from tales of war violence to reparative accounts of soldiers as moral exemplars homemakers adopters of children on the battlefield and nurses This material invites us to think afresh about Victorian masculinity and Victorian militarism It challenges ideas about the separation of military and domestic life and about the incommunicability of war experience Focusing on representations of soldiers experiences of touch and emotion the book combines the work of well known writers including Charles Dickens Charles Kingsley William Makepeace Thackeray Charlotte Yonge with previously unstudied writing and craft produced by British soldiers in the Crimean War 1854-56 The Crimean War was pivotal in shaping British attitudes to military masculinity A range of media enabled unprecedented public engagement with the progress and infamous blunders of the conflict Soldiers and civilians reflected on appropriate behaviour across ranks forms of heroism the physical suffering of the troops administrative management and the need for army reform The book considers how the military man of feeling contributes to the rethinking of gender roles class and military hierarchy in the mid nineteenth century and how this figure was used in campaigns for reform The gentle soldier could also do more bellicose social and political work disarming anti war critiques and helping people to feel better about war This book looks at the difficult mixed politics of this figure It considers questions debated in the nineteenth century and which remain urgent today about the relationship between feeling and action and the ethics of an emotional response to war It makes a case for the importance of emotional and tactile military history bringing the Victorian military man of feeling into contemporary debates about liberal warriors and soldiers as social workers

The Gulag Doctors Dan Healey, 2024-01-01 A pioneering history of medical care in Stalin s Gulag showing how doctors and nurses cared for inmates in appalling conditions A byword for injustice suffering and mass mortality the Gulag exploited prisoners compelling them to work harder for better rations in

shocking conditions From 1930 to 1953 eighteen million people passed through this penal industrial empire Many inmates not reaching their quotas succumbed to exhaustion emaciation and illness It seems paradoxical that any medical care was available in the camps But it was in fact ubiquitous By 1939 the Gulag Sanitary Department employed 10 000 doctors nurses and paramedics about 40 percent of whom were prisoners Dan Healey explores the lives of the medical staff who treated inmates in the Gulag Doctors and nurses faced extremes of repression supply shortages and isolation Yet they still created hospitals re fed prisoners treated diseases and saved a proportion of their patients They taught apprentices and conducted research too This groundbreaking account offers an unprecedented view of Stalin s forced labour camps as experienced by its medical staff
