Military Wives Whose Husbands are Deployed During Operation Iraqi Freedom Veneisha Johnson,2008-06-07 The focus of this study was to gain an understanding of six military wives experiences while their husbands were deployed during Operation Iraqi Freedom There were three themes that were derived from the literature and they were explored with the six wives communication reintegration and self esteem The analysis of the research was qualitative utilizing a phenomenological approach consisting of structured interviews for the participants whose husbands were deployed during Operation Iraqi Freedom To analyze the data Giorgio s 1985 phenomenological approach was used The structured interviews were used to explore and gain an understanding of how the three themes impacted the wives while their husbands were deployed The results showed that all three themes impacted the wives while their husbands were deployed Self esteem was not necessarily impacted by role reversal but it was an integral part of the deployment process and how the wives felt about themselves All of the participants experienced some type of difficulty communicating with their spouse during the time of war The obscurity continued after the deployment and many had to learn how to initiate a different type of communication skill The second theme dealing with reintegration proved to also be difficult on all of the wives They all expressed their happiness with the husband being home

safe but struggled with the role reversal The wives also struggled with giving up some of their independence The third theme proved that for many of the wives body image was very important Also important for them was their jobs and the role that they played as mother This research is important to the field of psychology those within the military culture and those interested in knowing more about the military community This is vital in helping others understand the plight of the wife during the time when her husband is deployed It will also assist in providing and reevaluating the way wives are treated and the programs that are offered to support them

[Policing Sex and Marriage in the American Military](#) Kellie Wilson-Buford, 2018-11-01 The American military's public international strategy of Communist containment systematic weapons build ups and military occupations across the globe depended heavily on its internal and often less visible strategy of controlling the lives and intimate relationships of its members From 1950 to 2000 the military justice system under the newly instituted Uniform Code of Military Justice waged a legal assault against all forms of sexual deviance that supposedly threatened the moral fiber of the military community and the nation Prosecution rates for crimes of sexual deviance more than quintupled in the last quarter of the twentieth century Drawing on hundreds of court martial transcripts published by the Judge Advocate General of the Armed Forces Policing Sex and Marriage in the American Military explores the untold story of how the American military justice system policed the marital and sexual relationships of the service community in an effort to normalize heterosexual monogamous marriage as the linchpin of the military's social order Almost wholly overlooked by military social and legal historians these court transcripts and the stories they tell illustrate how
