Leadership Education and Training 2 (LET 2) ,1997 Sermon CSS Publishing Co,2001 **Citizen, Student, Soldier** Gina M. Pérez,2015-11-27 Since the 1990s Junior Reserve Officer Training Corps JROTC programs have experienced unprecedented expansion in American public schools The program and its proliferation in poor urban schools districts with large numbers of Latina o and African American students is not without controversy Public support is often based on the belief that the program provides much needed discipline for at risk youth Meanwhile critics of JROTC argue that the program is a recruiting tool for the U S military and is yet another example of an increasingly punitive climate that disproportionately affect youth of color in American public schools Citizen Student Soldier intervenes in these debates providing critical ethnographic attention to understanding the motivations aspirations and experiences of students who participate in increasing numbers in JROTC programs These students have complex reasons for their participation reasons that challenge the reductive idea that they are either dangerous youths who need discipline or victims being exploited by a predatory program Rather their participation is informed by their marginal economic position in the local political economy as well as their desire to be regarded as full citizens both locally and nationally Citizenship is one of the central concerns guiding the JROTC curriculum this book explores ethnographically how students understand and enact different visions of citizenship and grounds these understandings in local and national political economic contexts It also highlights the ideological social and cultural conditions of Latina o youth and their families who both participate in and are enmeshed in vigorous debates about citizenship obligation social opportunity militarism and ultimately the American Dream Army JROTC Leadership Education & Training: Citizenship and American history ,2002 **Implementing High School JROTC Career Academies** Lawrence M. Hanser,Abby Eisenshtat Robyn,2000 In 1992 the U S Departments of Defencse and Education joined together to create a high school program aimed at encouraging at risk youth to remain in school until graduation The program is a marriage of the defense sponsored Junior Resrve Officer s Training Corps JROTC program and a comprehensive high school reform initiative referred to as career academeis This report grew out of the sponsors interest in tracking the implementation of the program both as a means to improve it and to expand it to additional sites Peterson's Private Secondary Schools 2007 Thomson Peterson's,2006-04 Lists and describes schools in the United States and Canada **MILITARY HIGH SCHOOLS IN AMERICA** William Trousdale,2007-05-15 Once considered a bastion of learning leadership and disciplined lifestyle today s

private military academies are often regarded as expensive holding facilities for unwanted incorrigible boys who have nowhere else to go Their depiction in popular media has reinforced the impression that they are boot camps disguised as educational institutions The reality is far more complex and far more encouraging Using a decade of participant observation research including serving as an instructor at some of these schools anthropologist William Trousdale explores the contemporary experience of military school life From the admissions office to daily life in barracks classrooms playing fields and social events he describes how these schools endeavor to realize their mission of creating educated mature young men from largely at risk youth and the challenges both met and unmet in doing so This volume will be of interest to those studying secondary and alternative education at risk youth and the role of the military in society **Army JROTC** ,2006
