**Italians in Wales and their Cultural Representations, 1920s-2010s** Bruna Chezzi,2015-11-25 Italian immigrants began to settle in Wales at the turn of the 19th century opening hundreds of coffee shops particularly in the South Wales Valleys Despite this such immigrants remain a largely unexplored case study in the history of Italian immigration to the UK This book uses a variety of unexplored sources and engages with the broader academic debate on migration identity and the trans generational transmission of memory to describe the emergence of Welsh Italian narratives and the formation of a distinctive yet complex Welsh Italian identity It follows a chronological journey moving from the interwar period a time in which Italians in Wales were generally regarded as fully established and integrated through to the Second World War a time when Italian identity became problematic and resulted in nearly seventy years of silencing up until the first decade of the 21st century where a mixture of commemorative events and cultural initiatives prompted the emergence of Welsh Italian narratives The book begins by studying photographic representations of Italians in Wales during the interwar period using photographs available in local history books private collections and history books The analysis of the photographic material draws from the work of scholars such as Sontag Noble Hirsh and Bate on photo textual analysis to show how photographs can reveal understudied yet important aspects of Italian migrant identity and of the relationship with the host community in the period that preceded the Second World War The book then examines how the events of the Second World War destabilised the images of family sociability and integration suggested by these photographs and how such events aggravated tensions between host and migrant cultures It continues by investigating recent Welsh Italian texts where in revisiting the past and the experience of their ancestors the authors bring different circumstances and personal factors into play determining the degree to which they reconcile their dual identity It concludes with a comparison between these narratives of belonging and the representation of the Italian migrant experience in Anglo Welsh literature The British National

Bibliography Arthur James Wells,2006 *Jack Youll VC, Great War Hero* Paul Chrystal,Nina Youll,2025-11-30 John Jack Scott Youll June 1897 27 October 1918 was a colliery electrician from a small village near Hartlepool County Durham before volunteering for the Army in 1915 Joining 1st Battalion Northumberland Fusiliers he showed early promise and was selected for officer training He first saw action on the Western Front and was mentioned in dispatches for his conduct during the heavy fighting around Polygon Wood in the Third Battle of Ypres But it was after redeployment to Italy that he earned the Victoria Cross for his exceptional valour and leadership near Asiago during the Third Battle of the Piave The medal citation for 2nd Lieutenant Youll describes how throughout the fighting his complete disregard of personal safety and very gallant leading set a magnificent example to all This was during an extended action which included his single handedly charging an

Austrian machine gun post that had his unit pinned down killing most of the crew and turning the weapon on the enemy Tragically Lieutenant Youll VC was killed soon after during the Battle of Vittorio Veneto the final battle of the Italian campaign just twenty four hours before the ceasefire on this front and a mere fortnight before the end of the wider war Jack Youll s example of dutiful service leadership and courage has hitherto received little recognition beyond a dignified graveyard memorial in his hometown This well researched and detailed account written by his relative Nina Youll and historian Paul Chrystal provides at last a fitting testimonial to a true hero of the Great War

*Anonymous Skeptics* Lance Ashdown, 2002 At its deepest philosophical skepticism questions the sense of language Skepticism manifests itself in different forms three of the most powerful being logical external world and religious skepticism How has philosophy of religion addressed these challenges The attempt to answer this question leads Lance Ashdown to a consideration of three prominent contemporary philosophers of religion Richard Swinburne John Hick and William Alston The author shows that these philosophers are indeed open to the criticisms of the three types of skepticism mentioned above According to Ashdown they are rightly to be considered as anonymous skeptics Readers familiar with the work of the theologian Karl Rahner will recognize an echo of his famous doctrine that non Christian religious believers are really anonymous Christians i.e Christian believers who do not recognize themselves as such In a similar way the philosophers of religion under consideration are skeptics who most certainly would not identify themselves as such They are anonymous skeptics in the sense that their epistemologies create the very conditions that allow for the severe and on their own terms

unanswerable challenges of skepticism At the same time none of these philosophers thinks that skeptical objections pose a devastating or unanswerable threat to their epistemologies For example each of them is an avowed believer in God and is fully aware of the challenge of religious skepticism yet none believes that skepticism need cause a rational Christian to abandon his or her beliefs Nevertheless each of the three philosophers adheres to a philosophical theory that remains open to the devastating critique of Philo in David Hume's essay Dialogue Concerning Natural Religion who argues at his deepest that talk of God is meaningless
