

The background is a detailed illustration of a campfire scene. In the center, a campfire with bright yellow and orange flames burns on a bed of logs. The ground is covered with a thick layer of autumn leaves in shades of red, orange, and brown. In the foreground, a small, open journal with a dark cover and a pen lies on the ground. The overall atmosphere is cozy and nostalgic.

Around The Campfire Field Journal:

The Curious Case of Dr. Castaneda's Twelve Pages of Field Notes F. Lawrence Fleming, 2023-01-05 My previous book about the author Carlos Castaneda *Making Sense of the Life and Works of Carlos Castaneda* F Lawrence Fleming published 2018 was an attempt to show that although evidence appears to show that Castaneda did actually work with a Yaqui Indian sorcerer the publications concerning his fieldwork were largely fraudulent In this present book I shall attempt to show what sort of person the character don Juan in the books by Carlos Castaneda may have been in real life and how his remarkable personal philosophy can be inferred from what I assert is Castaneda's grossly corrupted version of the teachings of Don Juan in his published works Cultural Tourism and Identity Keyan Tomaselli, 2012-08-22 Studies of cultural tourism and indigenous identity are fraught with questions concerning exploitation entitlement ownership and authenticity Unease with the idea of leveraging a group identity for commercial gain is ever present This anthology articulates some of these debates from a multitude of standpoints It assimilates the perspectives of members of indigenous communities non governmental organizations tourism practitioners and academic researchers who participated in an action research project that aims to link research to development outcomes **Backpacker**, 2007-09 Backpacker brings the outdoors straight to the reader's doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world's first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker's Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured **The View from Officers' Row** Sherry L. Smith, 1991-02-01 Capturing military men in contemplation rather than combat Sherry Smith reveals American army officers' views about the Indians against whom they fought in the last half of the nineteenth century She demonstrates that these officers and their wives did not share a monolithic negative view of their enemies but instead often developed a great respect for Indians and their cultures Some officers even came to question Indian policy expressed misgivings about their personal involvement in the Indian Wars and openly sympathized with their foe The book reviews the period 1848-1890 from the acquisition of the Mexican Cession to the Battle of Wounded Knee and encompasses the entire trans Mississippi West Resting primarily on personal documents drawn from a representative sample of the officer corps at all levels the study seeks to juxtapose the opinions of high ranking officers with those of officers of lesser prominence who were perhaps less inclined to express personal opinions in official reports No educated segment of American society had more prolonged contact with Indians than did army officers and their wives yet not until now has such an overview of their attitudes been presented Smith's work demolishes the stereotype of the Indian hating officer and broadens our understanding of the role of the army in the American West **Appendix to the Journals of the Senate and Assembly of the ... Surveyors of the Public Domain, 1785-1975 Lola Cazier, 1976 Cadastral surveys are performed to create mark and define or to retrace the boundaries between abutting land owners and more particularly between land of the Federal Government and private owners or local governments As referred to here cadastral surveys were performed only by the General Land Office during its existence and by the Bureau of Land Management The Bureau of Land Management is the only agency that is currently authorized to determine the boundaries of the public lands of the United States Proper understanding of the basis for performance of cadastral surveys includes an understanding of the history of the public land surveys An understanding of that history requires some consideration of the people who performed these surveys and of the people whose land was affected by them These chapters were written to be used as an aid in training cadastral surveyors in the application of surveying principles The learner is expected to gain from the factual material on survey laws and their formation as well as from a study of the people who performed the surveys Many of the men who had an important role in the history of cadastral surveying are still living but only those who have retired are included in the present document Foreword

Fire Management Notes, 1939 **Outback and Out West** Tom Lynch, 2022-11 Outback and Out West examines the ecological consequences of a settler colonial imaginary by comparing expressions of settler colonialism in the literature of the American West and Australian Outback Tom Lynch traces exogenous domination in both regions which resulted in many similar means of settlement including pastoralism homestead acts afforestation efforts and bioregional efforts at belonging Lynch pairs the two nations texts to show how an analysis at the intersection of ecocriticism and settler colonialism requires a new canon that is responsive to the social cultural and ecological difficulties created by settlement in the West and Outback Outback and Out West draws out the regional Anthropocene dimensions of settler colonialism considering such pressing environmental problems as habitat loss groundwater depletion and mass extinctions Lynch studies the implications of our settlement heritage on history art and the environment through the cross national comparison of spaces He asserts that bringing an ecocritical awareness to settler colonial theory is essential for reconciliation with dispossessed Indigenous populations as well as reparations for ecological damages as we work to decolonize engagement with and literature about these places

pair of binoculars Mark and Delia Owens caught a plane to Africa bought a third hand Land Rover and drove deep into the Kalahari Desert There they lived for seven years in an unexplored area with no roads no people and no source of water for thousands of square miles In this vast wilderness the Owenses began their zoology research working alongside lions brown hyenas jackals giraffes and the many other creatures they came to know Cry of the Kalahari is a gripping account of how two young Americans survived the dangers of living in one of the last pristine areas on Earth Reissued for the first time since its original publication in 1984 this beautiful new edition contains never seen before colour photographs of Mark and Delia on their adventure of a lifetime A remarkable story beautifully told Among such classics as Goodall s In the Shadow of Man and Fossey s Gorillas in the Mist Chicago Tribune For anyone interested in animals or in real life adventure this book is a must Jane Goodall Extraordinary How the couple overcome the hazards of the desert and came to appreciate its living richness makes fascinating reading Read their remarkable book to be delighted moved and awed People Magazine

Mapping the Four Corners Robert S. McPherson, Susan Rhoades Neel, 2016-08-04 In 1875 a team of cartographers geologists and scientists under the direction of Ferdinand V Hayden entered the Four Corners area for what they thought would be a calm summer s work completing a previous survey Their accomplishments would go down in history as one of the great American surveying expeditions of the nineteenth century By skillfully weaving the surveyors diary entries field notes and correspondence with newspaper accounts historians Robert S McPherson and Susan Rhoades Neel bring the Hayden Survey to life Mapping the Four Corners provides an entertaining engaging narrative of the team s experiences contextualized with a thoughtful introduction and conclusion Accompanied by the great photographer William Henry Jackson Hayden s team quickly found their trip to be more challenging than expected The travelers describe wrangling half wild pack mules trying to sleep in rain soaked blankets and making tea from muddy alkaline water Along the way they encountered diverse peoples evidence of prehistoric civilizations and spectacular scenery Hispanic villages in Colorado and New Mexico Mesa Verde Hovenweep and other Anasazi sites and the Hopi mesas Not everyone they met was glad to see them in southeastern Utah surveyors fought and escaped a band of Utes and Paiutes who recognized that the survey meant dispossession from their homeland Hayden saw his expedition as a scientific endeavor focused on geology geographic description cartographic accuracy and even ethnography but the search for economic potential was a significant underlying motive As this book shows these pragmatic scientists were on the lookout for gold beneath every rock grazing lands in every valley and economic opportunity around each bend in the trail The Hayden Survey ultimately shaped the American imagination in contradictory ways solidifying the idea of progress and government funding of its pursuit while also revealing via Jackson s photographs a landscape with a beauty hitherto unknown and unimagined

George Meléndez Wright Jerry Emory, 2023-04-26 In 1927 at the age of twenty three George Meléndez Wright conceptualized and eventually funded the first wildlife survey of western National Parks radically changing how the National Park Service NPS would manage natural resources under its charge By the time Wright arrived in Yosemite National Park to work as a ranger naturalist the first Hispanic person to occupy a professional position in the NPS he had already visited every national park in the Western United States At a time when national parks routinely fed bears garbage as part of shows and killed bad predators such as wolves and coyotes Wright s new ideas for conservation set the stage for modern scientific management of parks and other public lands Before his revolutionary ideas began to influence Park Service policy however Wright faced persistent pushback by an entrenched culture that disregarded wildlife apart from the role that fauna played as a tourist attraction Nonetheless he prevailed Wright died tragically in a car accident in 1936 while working to establish parks and wildlife refuges on the US Mexico border and yet to this day he remains a celebrated figure among conservationists wildlife experts and park managers Jerry Emory a writer connected to Wright s family draws on hundreds of

letters field notes interviews and other primary documents to offer both a biography of Wright and a historical account of a crucial period in the evolution of our parks Including a foreword by former National Park Service director Jonathan Jarvis the book explores and celebrates Wright s vision for science based wildlife management and his vocal support of wilderness in our parks and asks if current practices have achieved his goals

Two Lenins Nikolai Ssorin-Chaikov,2017-12-15 Highly innovative and theoretically incisive Two Lenins is the first book length anthropological examination of how social reality can be organized around different yet concurrent ideas of time Nikolai Ssorin Chaikov grounds his theoretical exploration in fascinating ethnographic and historical material on two Lenins the first is the famed Soviet leader of the early twentieth century and the second is a Siberian Evenki hunter nicknamed Lenin who experienced the collapse of the USSR during the 1990s Through their intertwined stories Ssorin Chaikov unveils new dimensions of ethnographic reality by multiplying our notions of time Ssorin Chaikov examines Vladimir Lenin at the height of his reign in 1920s Soviet Russia focusing especially on his relationship with American businessperson Armand Hammer He casts this scene against the second Lenin the hunter on the far end of the country in Siberia at the far end of the century the 1990s who is tasked with improvising postsocialism in the economic and political uncertainties of post Soviet transition Moving from Moscow to Siberia to New York and traveling form the 1920s to the 1960s to the 1990 s Ssorin Chaikov takes readers beyond a simple global history or cross temporal comparison instead using these two figures to enact an ethnographic study of the very category of time that we use to bridge different historical contexts
