Rudyard Kipling W. Dillingham, 2016-01-01 VictorianStudies on theWebCritics Choice Rudyard Kipling Hell and Heroism is an exploration of two fundamental yet greatly neglected aspects of the author's life and writings his deep seated pessimism and his complex creed of heroism The method of the book is both biographical and critical Biographically it traces the roots of Kipling's dark worldview and his search for something to believe in a way of thinking and acting in defiance of life's hellishness There matters were more basic to him than any of his social or political opinions but this the first full length study devoted to them Critically the book takes a fresh and close look at some of Kipling's most important works The result challenges long established assumptions and amounts to a major reconsideration of novels like Kim and stories like Mary Postgate and The Gardener Central in these discussions of individual writings is Kipling's concern with the heroic life but of equal importance is the analysis and evaluation of them as works of art Avoiding the tangled and special language of some recent literary theory this will appeal to a wide audience of those interested in Kipling's mind and art **Around the World in 80 Books** David Damrosch, 2021-11-04 Restlessly curious insightful and quirky David Damrosch is the perfect guide to a round the world adventure in reading Stephen Greenblatt A transporting and illuminating voyage around the globe told through eighty classic and modern books It is always a pleasure to talk about books with David Damrosch who has read all of them and he is so eloquent and understanding about them all Orhan Pamuk Inspired by Jules Verne's hero Phileas Fogg David Damrosch chair of Harvard's Department of Comparative Literature and founder of Harvard's Institute for World Literature set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe Following a literary itinerary from London to Venice Tehran and points beyond and via authors from Woolf and Dante to Nobel prizewinners Orhan Pamuk Wole Soyinka Mo Yan and Olga Tokarczuk he explores how these works have shaped our

idea of the world and the ways the world bleeds into literature To chart the expansive landscape of world literature today Damrosch explores how writers live in two very different worlds the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives In his literary cartography Damrosch includes compelling contemporary works as well as perennial classics hard bitten crime fiction as well as haunting works of fantasy and the formative tales that introduce us as children to the world we re entering Taken together these eighty titles offer us fresh perspective on perennial problems from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat and the patriarchal structures within and against which many of these books heroines have to struggle from the work of Murasaki Shikibu a millennium ago to that of Margaret Atwood today Around the World in 80 Books is a global invitation to look beyond ourselves and our surroundings and to see our world and its literature in new ways
