Majewski, David Gaimster, 2009-06-07 In studying the past archaeologists have focused on the material remains of our ancestors Prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior Those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved Increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context In short historical archaeology provides direct evidence for how humans have shaped the world we live in today Historical archaeology is a branch of global archaeology that has grown in the last 40 years from its North American base into an increasingly global community of archaeologists each studying their area of the world in a historical context Where historical archaeology started as part of the study of the post Columbian societies of the United States and Canada it has now expanded to interface with the post medieval archaeologies of Europe and the diverse post imperial experiences of Africa Latin America and Australasia The 36 essays in the International Handbook of Historical Archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology The volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world This key reference work captures the energy and diversity of this global discipline today

**Arqueología e historia en la colonia española**

**de Floridablanca, Patagonia, siglo XVIII** María Ximena Senatore, 2007-01-01 El libro Arqueología e Historia en la Colonia Española de Floridablanca expone ilusiones y utopías subyacentes al proyecto de poblamiento español de la Costa Patagónica de fines del siglo XVIII. En sus páginas se presentan nuevas miradas a la colonia de efímera existencia 1780-1784 y se invita a re descubrir sus restos materiales localizados en las cercanías de Puerto San Julián. Provincia de Santa Cruz, Argentina. Fue escrito con el propósito de dar a conocer los primeros pasos en el estudio del sitio arqueológico y ofrecer una perspectiva particular en el análisis de documentos históricos inéditos. La autora discute los mecanismos mediante los cuales una realidad social específica fue construida explorando la relación entre la creación de determinadas condiciones materiales y la estructuración de las relaciones sociales. Sus ideas articulan las narrativas y las materialidades que hoy conforman Floridablanca. Concluye su libro proponiendo a Floridablanca como escenario en el que se ensaya un modelo novedoso de sociedad inspirado en los discursos ilustrados. Asigna a Floridablanca en el mapa de los múltiples itinerarios de la modernidad. María Ximena Senatore, Doctora en Historia U de Valladolid, España y Arqueóloga U de Buenos Aires, es Investigadora de CONICET, Profesora de la Universidad de Buenos Aires y de la Universidad Nacional de la Patagonia Austral. Especializada en Arqueología Histórica y del Colonialismo, ha estudiado el rol del mundo material en la conformación de la modernidad en contextos particulares y distantes como el sur de Patagonia y Antártida. Ha publicado los libros Arqueología da Sociedade Moderna na América do Sul (2002) y Un Pasado en Blanco: Arqueología Histórica en Antártida (2007). **Current Research in Archaeology of South American Pampas** Gustavo Federico Bonnat, María Clara Álvarez, Diana Leonis Mazzanti, María Paula Barros, Mariano Bonomo, Verónica Puente, 2024-05-16 This volume includes a selection of papers derived from the IX Conference of the Pampas region of Argentina held virtually in 2021 in Mar del Plata, Buenos Aires, Argentina, and organized by the National University of Mar del Plata. Located in the southern cone of South America, the Pampas are vast plain grasslands that range across central Argentina and are one of the largest prairies of the world. The early traces of humans date back to ca. 12,000-14,000 years BP. From the Late Pleistocene up to the Spanish Conquest in the sixteenth century, hunter-gatherer groups occupied the Pampas. Archaeological research in the region has been focused on fascinating topics such as the early peopling, the mobility circuits in the past, the interaction between indigenous and colonial societies, and the perception of this complex past by the modern Pampean society, mainly integrated by European immigrants and indigenous descendants. This book gathers these themes and includes a selection of a conference of one of the keynote speakers and 18 papers that represent diverse topics on the current Pampean research. The book is structured in two main axes: 1) prehispanic studies using different lines of evidence; 2) historical archaeology and cultural heritage. Arqueología histórica de la diáspora africana en el Cauca, Colombia Patiño Castaño, Diógenes, 2020-04-30 Este libro analiza la presencia de los africanos esclavizados en el departamento del Cauca, Colombia. El cruce de las fuentes bibliográficas provenientes de archivos históricos, bibliografía especializada, datos propios de la investigación arqueológica y entrevistas con pobladores de las

zonas estudiadas es el principal aporte del texto a la Arqueología Histórica. Este cruce de fuentes y su análisis es importante para el estado del arte de las ciencias sociales en general sobre el tema de la presencia de los africanos esclavizados en Latinoamérica, Colombia y sobre todo en el Cauca aportando al estudio del pasado de la presencia africana en el país en el contexto actual de las comunidades locales que buscan información académica para sustentar sus movimientos y resistencias sociales. El libro de Di Genes Pati o emplea la relación existente entre arqueología e historia como herramienta metodológica complementaria para explorar los indicios de la población africana y afrodescendiente en el Cauca. También se ofrece una interpretación sobre la población esclava y los espacios donde fue utilizada su fuerza de trabajo: el contraste entre el uso doméstico dentro de las viviendas en Popayán y el uso de los esclavos por parte de las instituciones coloniales como la Casa de la Moneda y en el conjunto de haciendas del centro y norte del Cauca. Finalmente la obra devela la incidencia que tuvo la población esclava en el Cauca en el periodo colonial y en la primera mitad del siglo XIX. Es un aporte académico a las actuales poblaciones afrodescendientes como referente adicional en su búsqueda por construir identidad dentro del contexto de una nación multiétnica y pluricultural.

*Archaeologies of the British in Latin America* Charles E. Orser Jr., 2018-09-17. This volume includes chapters by historical archaeologists engaged in original research examining the role of the British Empire in Latin America. The archaeology of Latin America is today a rapidly expanding field with new research being accomplished every day. Currently the vast amount of research is being focused on the Spanish Empire and its agents' interactions with the region's indigenous peoples. Spain however was not the only international power intent on colonizing and controlling Latin America. The British Empire had a smaller albeit significant role in the cultural history of Latin America. This history constitutes an important piece of the historical story of Latin America. *Archaeologies of the British in Latin America* presents the results of original research and begins a dialogue about the archaeology of the British Empire in Latin America by an international group of archaeological scholars. Fresh insights on the complex history of cultural interaction in one of the world's most important regions are included. It will be of interest to historical archaeologists, Mesoamerican archaeologists engaged in pre-contact research, Latin American and global historians, Latin American anthropologists, material culture specialists, cultural geographers and others interested in the cultural history of colonialism in general and in Latin America in particular.
