 More on Chinese schools the Indian schools and comparison between them Alternating Narratives in Fiction for Young
Readers Perry Nodelman,2017-04-17 This book is about the implications of novels for young readers that tell their stories by
 alternating between different narrative lines focused on different characters It asks if you make sense of fiction by identifying
 with one main character how do you handle two or more of them Do novels with alternating narratives diverge from
 longstanding conventions and represent a significant change in literature for young readers If not how do these novels
 manage to operate within the parameters of those conventions This book considers answers to these questions by means of a
 series of close readings that explore the structural educational and ideological implications of a variety of American British
