Ars Versificatoria Art Of The Verse Make:

The Oxford History of Poetry in English Julia Boffey, Anthony Stockwell Garfield Edwards, 2023 This volume explores a range of English verse from 1400 to 1500 It studies specific genres and modes of fifteenth century verse the contexts for its creation the material forms of its transmission and some of its individual practitioners

Horace's Ars Poetica Jennifer Ferriss-Hill, 2019-11-12 A major reinterpretation of Horace's famous literary manual For two millennia the Ars Poetica Art of Poetry the 476 line literary treatise in verse with which Horace closed his career has served as a paradigmatic manual for writers Rarely has it been considered as a poem in its own right or else it has been disparaged as a great poet's baffling outlier Here Jennifer Ferriss Hill for the first time fully reintegrates the Ars Poetica into Horace's oeuvre reading the poem as a coherent complete and exceptional literary artifact intimately linked with the larger themes pervading his work Arguing that the poem can be interpreted as a manual on how to live masquerading as a handbook on poetry Ferriss Hill traces its key themes to show that they extend beyond poetry to encompass friendship laughter intergenerational relationships and human endeavor If the poem is read for how it expresses itself moreover it emerges as an exemplum of art in which judicious repetitions of words and ideas join disparate parts into a seamless whole that nevertheless lends itself to being remade upon every reading Establishing the Ars Poetica as a logical evolution of Horace's work this book promises to inspire a long overdue reconsideration of a hugely influential yet misunderstood poem

History as a Visual Art in the Twelfth-Century Renaissance Karl F. Morrison, 2014-07-14 Karl Morrison discusses historical writing at a turning point in

European culture the so called Renaissance of the twelfth century Why do texts considered at that time to be masterpieces seem now to be fragmentary and full of contradictions Morrison maintains that the answer comes from ideas about art Viewing histories as artifacts made according to the same aesthetic principles as paintings and theater he shows that twelfth century authors and audiences found unity not in what the reason read in a text but in what the imagination read into it they prized visual over verbal imagination and employed a circular or nuclear spectator centered perspective cast aside in the Renaissance of the fourteenth and fifteenth centuries Twelfth century writers assimilated and transformed a tradition of the conceptual unity of all the arts and attributed that unity to the fact that art both conceals and discloses Recovering that tradition especially the methods and motives of concealment provides extraordinary insights into twelfth century ideas about the kingdom of God the status of women and the nature of time itself It also identifies a strain in European thought that had striking affinities to methods of perception familiar in Oriental religions and that proved to be antithetic to later humanist traditions in the West Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Ars Poetriae William Michael Purcell,1996 Purcell suggests that the medieval genre holds contemporary significance as a model for rhetorical concerns brought to light by the critiques of post modernism and feminism Purcell examines the six Latin artes poetriae or works intended to instruct students in the composition of prose and poetry He contends that because of their position in the shift from oral to written communication the treatises reveal much about the nature of rhetoric and grammar The Fall of Women in Early English Narrative Verse Gvtz Schmitz,2011-08-11 This 1990 study examines the genre of complaint in the motif of the fallen woman a common image in Elizabethan literature *The Music of the Troubadours* Elizabeth Aubrey,2000-07-22 The Music of the Troubadours is the first comprehensive critical study of the extant melodies of the troubadours of Occitania It begins with an overview of their social and political milieu in the twelfth and thirteenth centuries then provides brief biographies of the troubadours whose music survives The four manuscripts that transmit this music are described in detail with attention to their genesis in the overlapping roles of composers singers and scribes Back cover *Chaucer's "art Poetical"* Jörg O. Fichte,1980 **Scribes of Space** Matthew Boyd Goldie,2019-03-15 Scribes of Space posits that the conception of space the everyday physical areas we perceive and through which we move underwent critical transformations between the thirteenth and fifteenth centuries Matthew Boyd Goldie examines how natural philosophers theologians poets and other thinkers in late medieval Britain altered the ideas about geographical space they inherited from the ancient world In tracing the causes and nature of these developments and how geographical space was consequently

understood Goldie focuses on the intersection of medieval science theology and literature deftly bringing a wide range of writings scientific works by Nicole Oresme Jean Buridan the Merton School of Oxford Calculators and Thomas Bradwardine spiritual poetic and travel writings by John Lydgate Robert Henryson Margery Kempe the Mandeville author and Geoffrey Chaucer into conversation This pairing of physics and literature uncovers how the understanding of spatial boundaries locality elevation motion and proximity shifted across time signaling the emergence of a new spatial imagination during this era

Classical Genres and English Poetry (Routledge Revivals) William H. Race, 2014-08-01 First published in 1988 this study explains how certain genres created by Classical poets were adapted and sometimes transformed by the poets of the modern world beginning with the Tudor poets rediscovery of the Classical heritage Most of the long lived poetic genres are discussed from familiar examples like the hymn elegy and eulogy to less familiar topics such as the recusatio refusal to write certain kinds of poems or formal structures such as priamel By combining criticism with literary history the author explores the degree to which certain poets were consciously imitating models and demonstrates how various generic forms reflect the literary concerns of individual poets as well as the general concerns of their age The poets discussed range over the whole of Graeco Roman antiquity and in English from Wyatt to Yeats and Auden A detailed and fascinating title this study will appeal to teachers and students of both English and Classical literature

Medieval Literature Dominique Battles, 2024-08-28 This is the first book length exploration of the type scenes of western medieval literature from the ninth to the fifteenth centuries spanning both the Latinate and Germanic traditions Type scenes are the recurring stock scenes comprising the basic structure and cognitive guidance for narrative These formulaic scenes enabled medieval poets to express originality while honoring tradition Central to medieval poetic invention type scenes form the vital internal organs of narrative each serving a specialized function while working in concert with other organs to create and sustain the story This accessible and engaging guide to medieval type scenes consists of three parts Part I is a compendium of the type scenes commonly found in medieval narrative including analyses of examples from individual poems Part II explores combinations of type scenes within single works of literature for purposes of chronology characterization or virtuosity Part III examines how a single type scene manifests across multiple poems adapting to a variety of settings and periods while maintaining its original intent This volume kindles in scholars teachers and students alike a new and refreshing awareness of the foundational narrative strategies of medieval literature

argument that there exist in Middle English verse distinct narrative patterns that affected medieval contemporary audiences in symbolic ways The author focuses upon one particular narrative pattern that occurs in a large number of poems allowing us to discern even if we do not share unstated medieval assumptions about narrative structure The Making of Memory in the Middle Ages Lucie Doležalová, 2009-11-17 Memory in the Middle Ages has received particular attention in recent decades yet the topic remains difficult to grasp and the research on it rather fragmented This book gathers particular case studies on memory in different parts of medieval Europe and in a variety of fields including literatures languages manuscript studies history history of ideas philosophy social history and art history The studies address on the one hand memory as means of storing and recuperating knowledge arts of memory and memory aids and on the other hand memory as remembering and constructing the past including the subject of forgetting It should be useful to all interested in medieval culture literature and history Contributors are Milena Bartlov Bergsveinn Birgisson Irene Bueno Vincent Challet Greti Dinkova Bruun Lucie Dolealov D vid Falvay Carmen Florea C dric Giraud Laura Iseppi de Filippis Farkas G bor Kiss R diger Lorenz Else Mundal El d Nemerky William J Purkis Slavica Rankovi Lucia Raspe Kimberly Rivers Victoria Smirnova Francesco Stella P ter T th Tam s Visi Jon Whitman and Rafa W jcik **The Art of Versification** Matthew (of Vendôme), Pandurang Vasudeo Sukhatme, Balkrishna V.
