**Heidegger on Art and Art Works** J.J. Kockelmans, 1985-04-30 This book grew from a series of lectures presented in 1983 in the context of the Summer Program in Phenomenology at The Pennsylvania State University For these lectures I made use of notes and short essays which I had written between 1978 and 1982 during interdisciplinary seminars on Heidegger s later philosophy in general and on his philosophy of language and art in particular The participants in these seminars consisted of faculty members and graduate students concerned with the sciences the arts literature literary criticism art history art education and philosophy On both occasions I made a special effort to introduce those who did not yet have a specialized knowledge of Heidegger s philosophy to his later way of thinking In this effort I was guided by the conviction that we as a group had to aim for accuracy precision clarity faithfulness and depth while at the same time taking distance comparing Heidegger s views with ideas of other philosophers and thinkers and cultivat ing a proper sense of criticism Over the years it has become clear to me that among professional philoso phers literary critics scholars concerned with art history and art education and scientists from various disciplines there are many who are particularly interested in Heidegger s philosophy of art I have also become convinced that many of these dedicated scholars often have difficulty in understanding Heidegger s lectures on art and art works This is understandable The Art Firm Pierre Guillet de Monthoux, 2004 The Art Firm explores the seemingly unorthodox alliance of the arts management and marketing Art firms as

avant garde enterprises and arts corporations have existed for at least two hundred years using texts images and other types of art to create corporate wealth This book investigates how to apply the methods artists use in creating value to the methods more traditional managers use in running their businesses Guillet de Monthoux offers a crash course in aesthetics from Kant to Gadamer showing how aesthetic management and metaphysical marketing can create value Using case studies of successful art managers from Richard Wagner to Robert Wilson the author illustrates the creative role so central to value making in contemporary economies performed by aesthetic play in art firms Along the way Guillet de Monthoux points out how responsible aesthetic management and marketing can eradicate the problems of banality and totality the two capital sins of an art based economy     Putting Art to Work Keith Chirgwin,2023-08-18 With Putting Art to Work we want to show how artwork with pictures can be used as a tool to support the development of individuals groups and organizations With our tailor made workshops we invite all professionals working with learning and development from educators at all levels management and organizational consultants psychologists coaches therapists social workers and health educators to use our art based workshops since a more exciting and enjoyable way of promoting health and supporting change and development in work life we think is hard to imagine     **Arts and Community Change** Max O.
