Sebeok, Jean Umiker-Sebeok, 2012-12-06 Although semiotics has in one guise or another flourished uninterruptedly since pre Socratic times in the West and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions semiotics as an organized undertaking began to bloom only in the 1960s Workshops materialized with a perhaps surprising spontaneity over much of Europe Eastern and Western and in North America Thereafter others quickly surfaced almost everywhere over the literate globe Different places strategically allied themselves with different legacies but all had a common thrust to aim at a general theory of signs by way of a description of different sign systems their comparative analysis and their classification More or less permanent confederations were forged with the most diverse academic disciplines and amazingly varied frameworks were devised suited to the needs of the times and the sites to carry the work of consolidation forward Bit by bit mutually supportive international networks were put together Today it can truly be asserted that semiotics has become a global enterprise This of course is far from saying that the map is uniform or even that world wide homogeneity is in the least desirable While our conjoint ultimate goal remains steadily in focus the multiplicity of avenues available for its realization is inherent in the adventure of the search itself **Handbook of Qualitative Research Methods in Entrepreneurship** Helle Neergaard, John P. Uhløi, 2007 the Handbook of Qualitative Research Methods in Entrepreneurship is an important contribution to the field and should be referenced in any paper using
