## **Arms Armies And Fortifications In The Hundred Years War:**

**Arms, Armies and Fortifications in the Hundred Years War** Anne Curry, Michael Hughes, 1999 Careful original and wide ranging study of many different aspects of late medieval military history HISTORY The Hundred Years War embraced warfare in all aspects from the grand set pieces of Crecy and Agincourt to the pillaged lands of the dispossessed population What makes this book different from previous studies emphasising the great battles is its use of less familiar evidence such as administrative records and landscape archaeology to gain a truer picture of the realities of medieval warfare From a general review of battle tactics the book turns to examine at points enlisting computer analysis a number of issues the composition of the English army the management of affairs in Aquitaine the response in England at large to the war and the consequent propaganda and hardship and the impact of warfare on local communities Close study of surviving artefacts weapons fortifications also allows realistic assessments of military and naval experiences Contributors ANDREW AYTON MATTHEW BENNETT ANNE CURRY IAN FRIEL ROBERT HARDY MICHAEL HUGHES MICHAEL JONES BRIAN KEMP JOHN KENYON MARK ORMROD ROBERT SMITH MALCOLM VALE The Hundred Years War C. T. Allmand, 1988-02-04 A comparative study of how the societies of late medieval England and France reacted to the long period of conflict between them from political military social and economic perspectives Prisoners of War in the Hundred Years War Rémy Ambühl, 2013-01-17 This book explores the individual and complex experiences of captors and prisoners and the practice of ransoming in the Hundred Years War **The Hundred Years War** Christopher Allmand, 1988-02-04 This is a comparative study of how the societies of late medieval England and France reacted to the long period of conflict between them commonly known as the Hundred Years War Beginning with an analysis of contemporary views regarding the war Two chapters follow which describe the military aim of the protagonists military and naval organisation recruitment and the raising of taxes The remainder of the book describes and analyses some of the main social and economic effects of war upon society the growth of a sense of national consciousness in time of conflict and the social criticism which came from those who reacted to changes and development brought about by war Although intended primarily as a textbook for students Dr Allmand's study is much more than that It makes an important general contribution to the history of war in medieval times and opens up new and original perspectives on a familiar topic *The Wars of Edward III* Clifford J. Rogers, 1999 Contemporary documents and classic studies follow Edward's fortunes on the battlefield from failure against the Scots to major military successes in France When Edward III came to the throne of England in 1327 England's military reputation had reached a low ebb The young king's first campaign against the Scots was a complete failure and the next year the shameful peace set the seal on Robert Bruce's victory in the First Scottish War of Independence Twenty two years later however King Jean II of France and King David II of Scotland were both prisoners in London an English army was camped outside Paris and Edward was widely considered the most skilful warrior in the world Clifford Rogers uses contemporary documents campaign

bulletins administrative documents and excerpts from 29 different chronicles to tell the story of the battles sieges and chevauchés that produced this remarkable reversal and the subsequent restoration of French fortunes under Du Guesclin and Charles V The majority of the texts employed have never before been translated into modern English and a number have never been published before in any language Complementing these primary source materials are eight classic articles covering the Scottish Wars the outbreak of the Hundred Years War the recruitment organisation and supply of English armies English strategy and war aims and the war's impact on French society and on the development of Parliament in England Together they provide a complete introduction to the topic Dr CLIFFORD ROGERS teaches at the United States Military Academy at West Point

**Military Transition in Early Modern Asia, 1400-1750** Kaushik Roy, 2014-05-22 A substantial amount of work has been carried out to explore the military systems of Western Europe during the early modern era but the military trajectories of the Asian states have received relatively little attention This study provides the first comparative study of the major Asian empires military systems and explores the extent of the impact of West European military transition on the extra European world Kaushik Roy conducts a comparative analysis of the armies and navies of the large agrarian bureaucratic empires of Asia focusing on the question of how far the Asian polities were able to integrate gunpowder weapons in their military systems Military Transition in Early Modern Asia 1400 1750 offers important insights into the common patterns in war making across the region and the impact of firearms and artillery [Armies and Warfare in the Middle Ages](#) Michael Prestwich, 1999-01-01 A history of the war experience of 13th and 14th century England With anecdotes and illustrations it explores how English medieval armies fought how men were recruited how the troops were fed supplied and deployed the development of weapons and the structure of military command

**Kingship and Masculinity in Late Medieval England** Katherine Lewis, 2013-09-05 Kingship and Masculinity in Late Medieval England explores the dynamic between kingship and masculinity in fifteenth century England with a particular focus on Henry V and Henry VI The role of gender in the rhetoric and practice of medieval kingship is still largely unexplored by medieval historians Discourses of masculinity informed much of the contemporary comment on fifteenth century kings for a variety of purposes to praise and eulogise but also to explain shortcomings and provide justification for deposition Katherine J Lewis examines discourses of masculinity in relation to contemporary understandings of the nature and acquisition of manhood in the period and considers the extent to which judgements of a king's performance were informed by his ability to embody the right balance of manly qualities This book's primary concern is with how these two kings were presented represented and perceived by those around them but it also asks how far Henry V and Henry VI can be said to have understood the importance of personifying a particular brand of masculinity in their performance of kingship and of meeting the expectations of their subjects in this respect It explores the extent to which their established reputations as inherently manly and unmanly kings were the product of their handling of political circumstances but owed something to factors beyond their immediate control as well

Consideration is also given to Margaret of Anjou's manipulation of ideologies of kingship and manhood in response to her husband's incapacity and the ramifications of this for perceptions of the relational gender identities which she and Henry VI embodied together. Kingship and Masculinity in Late Medieval England is an essential resource for students of gender and medieval history.

**Conflicts, Consequences and the Crown in the Late Middle Ages** Linda Clark, 2007. A range of important issues in current research are debated in the latest volume in the series with a special focus on warfare. The theme of conflict is central to the essays gathered in this volume. Apart from the renewed armed struggle with France in the final stages of the Hundred Years War, subjects covered include the theoretical foundations of the Wars of the Roses, the impact of this conflict in the provinces, the frequently strained relationship between the English, the Irish and the Welsh, and the effects of intermittent warfare between England and Scotland. Other themes that emerge include the evolution of the English constitution, clerical practice at the centre and in the regions, and the competence or otherwise of Italian bankers when dealing with men at war.

Contributors: JIM BOLTON, LUCY BROWN, MICHAEL BROWN, CHRISTINE CARPENTER, ANNE CURRY, GILLIAN DRAPER, PETER FLEMING, ANTHONY GOODMAN, HANNES KLEINEKE, CATHERINE NALL, AND JAMES ROSS.

**Conquest** Juliet Barker, 2012-03-01. Barker tells the dramatic story of the thirty years when England ruled France at the point of a sword. Henry V's second invasion of France in 1417 launched a campaign that would place the crown of France on an English head. The appearance of a visionary peasant girl, Joan of Arc, was able to halt the English advance but not for long.
