Army Of The Pacific:

United States Army, Pacific Command United States. Army. Pacific Command, 1960 **The Army in the Pacific** James C. McNaughton, 2012 Offers an overview of the Army's history in this rapidly changing region. It describes how the Army's involvement began with an expedition to seize Manila from Spain in 1898 which led to a protracted campaign against Philippine insurgents. When Japan attacked in 1941, the Army fought back as part of a joint and multinational team in some of the most far-reaching campaigns in history, after which the Army became responsible for post-conflict operations in Japan, Okinawa, South Korea, and the Philippines. During the Cold War, the Army fought hot wars in Korea and Vietnam. After the Vietnam War, the Army provided regional stability, a shield against aggression, and engagement with allies and partners as the region experienced unprecedented growth. This broad historical perspective reveals some enduring lessons: the vast distances and diversity of terrain and weather; the necessity for joint and multinational operations; and the need for a versatile, adaptive, and agile force. Guardians of Empire Brian McAllister Linn, 2000-11-09 In a comprehensive study of four decades of military policy, Brian McAllister Linn offers the first detailed history of the U.S. Army in Hawaii and the Philippines between 1902 and 1940. Most accounts focus on the months preceding the Japanese attack on Pearl Harbor. By examining the years prior to the outbreak of war, Linn provides a new perspective on the complex evolution of events in the Pacific. Exhaustively researched, *Guardians of Empire* traces the development of U.S. defense policy in the region, concentrating on strategy, tactics, internal security, relations with local communities, and military technology. Linn challenges earlier studies which argue that army officers either ignored or denigrated the Japanese threat and remained unprepared for war. He demonstrates instead that from 1907 onward, military commanders in both Washington and the Pacific were vividly aware of the danger that they developed a series of plans to avert it, and that they in fact identified even if they could not solve many of the problems that would become tragically apparent on 7 December 1941.
