Women and Photography in Apartheid South Africa Marie Meyerding,2025-04-29 Tracing the lives and works of five women in four case studies author Marie Meyerding examines the representation of women in the field of photography in South Africa in the second half of the twentieth century All of them are critically understudied with no existing scholarship dedicated exclusively to their photographic contributions Focusing on the representation of women on two different levels as agents behind the camera and as subjects in photographs it showcases women photographers portraying their female contemporaries and analyses to what extent they adhered to or subverted common forms of gender representation In recuperating their forgotten archives the book argues that none of these women are marginal figures but rather that each of them played a leading role in the field of photography in their own time The book will be of interest to scholars working in art history history of photography gender studies intersectionality and African studies *How to Be Well* Amy

Larocca,2025-05-13 A deeply researched lively and personal exploration of the multibillion dollar wellness industry about why women are feeling so un well and how this trend has shaped our thinking about health and self care Peloton Pilates Biohacking Colonics Ashwagandha Today the wellness industry is a 3 7 trillion behemoth that touches us all In this timely and clear eyed book journalist Amy Larocca peels back the layers behind the wellness movement and reckons with its

promises and profits How did we get here and how did the idea of wellness become integrated with women s lives And how did we end up spending so much money on products that may not work at all Amy Larocca takes readers into the communities that swear by their activated charcoal toothpaste and green juice enemas explaining what each of these practices really is and what the science says Larocca holds a magnifying glass to alternative medicine and nouveau lifestyle prescriptions and tries a lot herself along the way ultimately delivering an assessment of how the wellness industry embodies our gendered class based racialized perceptions of care and self improvement and how it preys on our unshakable fear of the unknown She traces the history of how the beauty and fashion industries have peddled snake oil to women for decades and why we keep coming back for more A clear eyed and honest portrait of the weird world of wellness How to Be Well lays bare the ways in which the simple notion of caring for oneself has become a seriously big business *Whitaker's Book List* ,1991
