Trubek, 2000-12-04 Paris is the culinary centre of the world All the great missionaries of good cookery have gone forth from it and its cuisine was is and ever will be the supreme expression of one of the greatest arts of the world observed the English author of *The Gourmet Guide to Europe* in 1903 Even today a sophisticated meal expertly prepared and elegantly served must almost by definition be French For a century and a half fine dining the world over has meant French dishes and above all French chefs Despite the growing popularity in the past decade of regional American and international cuisines French terms like julienne saute and chef de cuisine appear on restaurant menus from New Orleans to London to Tokyo and culinary schools still consider the French methods essential for each new generation of chefs Amy Trubek trained as a professional chef at the Cordon Bleu explores the fascinating story of how the traditions of France came to dominate the culinary world One of the first reference works for chefs *Ouverture de Cuisine* written by Lancelot de Casteau and published in 1604 set out rules for the preparation and presentation of food for the nobility Beginning with this guide and the cookbooks that followed French chefs of the seventeenth and eighteenth centuries codified the cuisine of the French aristocracy After the French Revolution the chefs of France found it necessary to move from the homes of the nobility to the public sphere where they were able to build on this foundation of an aesthetic of cooking to make cuisine not only a respected profession but also to make it a French profession French cooks transformed themselves from household servants to masters of the art of fine dining making the cuisine of the French aristocracy the international haute cuisine Eager to prove their good taste the new elites of the Industrial Age and the bourgeoisie competed to hire French chefs in their homes and to entertain at restaurants where French chefs presided over the kitchen *Haute Cuisine* profiles the great chefs of the nineteenth century including Antonin Careme and Auguste Escoffier and their role in creating a professional class of chefs trained in French principles and techniques as well as their contemporary heirs notably Pierre Franey and Julia Child The French influence on the world of cuisine and culture is a story of food as status symbol Tell me what you eat the great gastronome Brillat Savarin wrote and I will tell you who you are *Haute Cuisine* shows us how our tastes desires and history come together at a common table of appreciation for the French empire of food Bon appetit

Accounting for Taste Priscilla Parkhurst Ferguson, 2006-08-01 French cuisine is such a staple in our understanding of fine food that we forget the accidents of history that led to its creation Accounting for Taste brings these accidents to the surface illuminating the magic of French cuisine and the mystery behind its historical development Priscilla Parkhurst Ferguson explains how the food of France became French cuisine This momentous culinary journey begins with Ancien Régime cookbooks and ends with twenty first century cooking programs It takes us from Carême the inventor of modern French cuisine in the early nineteenth century to top chefs today such as Daniel Boulud and Jacques Pépin Not a history of French cuisine Accounting for Taste focuses on the people places and institutions that have made this cuisine what it is today a privileged vehicle for national identity a model of cultural ascendancy and a pivotal site where practice and performance intersect With sources as various as the novels of Balzac and Proust interviews with contemporary chefs such as David Bouley and Charlie Trotter and the film Babette's Feast Ferguson maps the cultural field that structures culinary affairs in France and then exports its crucial ingredients What's more well beyond food the intricate connections between cuisine and country between local practice and national identity illuminate the concept of culture itself To Brillat Savarin's famous

dictum Animals fill themselves people eat intelligent people alone know how to eat Priscilla Ferguson adds and Accounting for Taste shows how the truly intelligent also know why they eat the way they do Parkhurst Ferguson has her nose in the right place and an infectious lust for her subject that makes this trawl through the history and cultural significance of French food from French Revolution to Babette's Feast via Balzac's suppers and Proust's madeleines a satisfying meal of varied courses Ian Kelly Times UK
